QUEBEC, Sept. 24 .- The death

Tomorrow: Reception Was

Huge

SANTA MONICA, Sept. 24.

San Francisco.

Fred Stork, M.P., received a telegram this morning from Hon. Thomas Low, minister of Trade and Commerce, saying that C. D. Howe, consulting engineer of Port Arthur, had been instructed to proceed with the plans for the Prince Rupert elevator. Tenders for the foundations will be called just as soon as the plans are completed and the work is to proceed during the winter.

It will not be necessary for Mr. Howe to inspect the site as the preliminary work has already been done. Mr. Howe was here in the spring and he then reported on the possible sites and at that time he chose the one near Morse Creek as being the best available.

STEWART HAD SERIOUS FIRE

Power House, Waterworks Tower, Residence and Machinery Destroyed

Stewart was visited with \$10,000 fire last week when the 67. He was appointed to the Stewart Public Utilities power Senate only last year. house and waterworks tower were completely destroyed, the origin of the blaze being un- survey commission in 1893 and known. The residence, occupied later was engaged in legal surby Hugo Stratford, who was in veying in Dawson and British charge of the plant, was also destroyed . St. Mark's Church and vicarage was in danger but it U.S. FLYERS AT was saved. A 50,000 gallon U.S. FLYERS AT water tank, considerable machinery, an automobile and motorcycle were also destroyed.

It has not yet been decided whether the plant will be rebuilt. this depending entirely on whether or not the International Electric Co. can supply light to the town. Some of the Stewart business houses have already connected up with the International Co. lines.
