### ALBERTA'S VIEWPOINT ON THE BRULE RAILWAY

Premier Oliver says he is opposed to the construction of a Grande Prairie and strongly in favor of the extension of E.D. and B.C. system through the mountains to Prince George. That was to be assumed. The Brule-Grande Prairie line vould open up no new territory in British Columbia; the construction of a line through one of the northern passes to Prince George would open up a section of British Columbia that is not likely to be otherwise developed. The same reason that impels the British Columbia Premier to oppose the Brule-Grande Prairie line should cause the Alberta Government to back that project THEN CALLED POLICE with all the energy it can exert. There is no fault to be found NEW YORK, April 22. - A with Premier Oliver for wanting George Heroze, 18 years of opposing the Alberta project is age, pointed the gun at Sevick as an added reason why every possible Alberta influence should be "Don't point that gun at me," brought to bear to secure the

# HIS WEEK'S SALARY

NEW YORK, April 22.- A generous robber held up a grocer elerk at 99 Linden Street, Yonk-ers, recently, and, after forcing PREMIER MUSSOLINI Herbert Miller, the clerk, to turn over the day's receipts of \$203 at the point of a revolver, paid him his week's wages out of the pilfered cash.

After stripping the cash register, the robber turned to the clerk and asked: "What do you get

"Well, here's your pay anyway," said the gunman as he tossed forty dollars in currency on the counter, and backed out of the door.

(NO TELEPHONE ORDERS)

Until further notice this store will open at 9 a.m.

"There is no use crying over spilt milk" But who lost the milk? Prince Rupert's spilt milk is the huge sum sent weekly to the mail order houses. We're not crying about it. There is no use. But our's is not the only loss! If we had but 5 per cent of this business added to our present turnover, we feel sure we could treble our staff. thus providing more opportunities for local employment and also carry a greater and more varied stock to supply your needs. Thus possibly in time the city would be supplied with a real department store at which the people at nearby points would shop, instead of with the catalogue houses.

This is your problem, Mr. Citizen, whether you be wage earner, business or professional man, as the children of today will be seeking employment tomorrow. Give us the support we merit and we will endeavor to solve a question which means more to Rupert than does a grain elevator.
