FALL SKIN WORRIES

CHANGE-OF-SEASON brings troublesome skin worries. Pimples, irritating rashes, blotches, etc., are often harbingers of fiery eczema, psoriasis and other stubborn disease.

A little Zam-Buk will soon put your skin right. Nothing else takes away pain and irritation so readily as this famous herbal healer. Sinking deep into the tissue, it destroys harmful germs, expels impurities and makes the skin healthy and clear.

Zam-Buk ensures quick antiseptic healing and protects injuries against festering and blood-poison, and is a widely-used remedy for piles. Zam-Buk Medicinal Soap is a valuable aid to the treatment.

The Man in the Moon
SAYS:-

SUCCESS depends on the amount of bone in the back and lack of it in the head.

PUBLIC office may be an honor or an opportunity. I am thankful I do not look for either.

PROFESSIONAL men are often looked upon as more respectable than the rest of the community but they are not.

I HAVE often thought what a good thing it was for Eve that she had a serpent to blame for her fall.

DID you ever notice how closely a shoeblack watches your feet and a barber your head. No, I said nothing about the grocer watching your tummy.

NEITHER love or coffee are ever the same when warmed over.

SOME people work hard at a job and others work hard at getting rich.

THERE'S nothing just as precarious as the size of the Sunday congregation.

NATURE often loads a man up with brains but forgets to add that little touch which tells how to employ them.

SOME people live long and others live a lot in a short time.

IT takes a good many people almost all their time trying to live down their reputations.

THE man in the moon believes in safety first. That is why he lives in the moon where he can laught at the foibles of mankind without the annoyance of an exchange of brickbats.

AMBERGRIS FOUND ON BEACH IN ALASKA

(Ketchikan Chronicle)

W. G. Wells, a rancher from the Homer district, is reported to have found a deposit of ambergris on the beach near the town of Homer. Ambergris has a great commercial value and is used largely in the manufacture of perfumery. It is sometimes found in the whale and again on the surface of the water inhabited by the mammals or along the beaches. It is opaque, inflammable, volatile and usually grey in color, often streaked with brown, white or gray. Scientists say that it is obtained from the fatty tissues of the cephalopdos eaten by the whale.

The amount found by Wells is quite large and he expressed it as has intention to send a piece weighing approximately 100 pounds to the chemists at the University of Washington for analysis.

The Safe Rational Remedy for COUGHS, COLDS & CHILLS

THE speedy and most direct treatment for Coughs, Colds, Bronchitis, etc., is *to breathe* the volatile Peps medicine into your lungs. This method is a big advance on dosing with drug-laden mixtures, which act on the stomach, liver and heart, but on the lungs last and least of all.

As Peps tablets dissolve in the mouth, they give off balsamic lung-healing pine fumes. Peps are wonderfully strengthening to weakened tissues. They cut phlegm, soothe and purify the tender, irritated air-passages, and have an invigorating, antiseptic and fortifying action on the entire breathing system.

An immediate sense of chest comfort and breathing-ease is produced by Peps. Soreness, inflammation and irritation is quickly allayed, disease-germs infesting the throat and breathing-tubes are speedily destroyed.

Peps are the ideal and long sought remedy for coughs, colds and chills, wheeziness and tightness of chest, sore throat, laryngitis, children's and old folk's chest weaknesses, bronchial catarrh, bronchitis, etc.

A Peps in the mouth safeguards throat and chest against harmful effect of cold, wet changeable weather. In crowded train or street-car, busy store or theatre Peps afford security against infectious colds, sore throat, etc.

The proprietors of Peps are glad to announce substantial price benefits, made possible by greatly increased sales and lowered production costs. Peps, of the same high standard of medicinal excellence in every way, are now obtainable at the new
