

For Meatless Days

It is economy to let the butcher drive past once in a while.

Oxo Cubes take the place of butcher's meat in soups and savory dishes and open up a hundred and one dainty ways of using up today what was left over from yesterday.

Oxo Cubes are time and money savers—more than that, they add nutrition to other foods.

Tins of 4, 10, 50 and 100 Cubes.

OXO CUBES

Oxo Vegetable Dish

Soak in 1 1/2 hours in boiling water. Fry in 1/2 cup oil in saucepan with a little margarine or fat. When brown add 4 Oxo Cubes, dissolved in 1/2 pint of hot water. Grate or slice 1 carrot, add a little turmeric or paprika. Then add some barley or macaroni. Simmer for one hour. Serve with toast or mashed potatoes; a little thickening added improves it.

Send four Oxo Cube wrappers for this Jig Saw Puzzle. OXO LIMITED, 232 Lemoyne St., Montreal.

Here and There

A new record has been established by the Department of Marine and Fisheries in the number of white fish eggs collected for hatchery purposes in the Great Lakes and the Lake of the Woods. A total of 464,560,000 eggs were obtained, which exceeds all previous collections in the province of Ontario.

A new deposit of soapstone has been discovered on Trap Lake, a small lake south of Wabigoon Lake, in northwestern Ontario. The quality of the stone has been reported as excellent for various industrial uses, and practical trials are under way. Water transportation is available direct from the deposits to Wabigoon and Dryden, on the main line of the Canadian Pacific Railway.

It is announced by the Canadian Pacific Railway that two free scholarships covering four years' tuition in architecture, chemical, civil, mechanical or electrical engineering at McGill University, are offered, subject to competitive examinations, to apprentices and other employees enrolled on the permanent staff of the company and under 21 years of age, and to minor sons of employees.

Canada's fisheries' production during 1923 is estimated to be worth \$40,000,000. At the beginning of the year it was not thought that anything like this mark would be reached, for the Fordney tariff had cut deeply into exports to the United States. But as the year wore on the demand and prices generally improved, thus giving fishermen along the Atlantic coast especially a much better market.

Approximately \$5,000,000 will be spent by the Dominion Coal Company to open up a new mine and colliery at Lingan, Nova Scotia, and construction of a branch line of railway to the new site has already been started. The new colliery will be equipped with every modern device, and a model town will be planned in its vicinity. It will have a capacity of some 2,000 tons daily.

The tenth annual Ski Tournament will be held at Revelstoke, February 5th and 6th, in connection with which ski-joring, tobogganing, snowshoeing, skating, etc., will be featured. An endeavor is being made to secure the attendance of Uno Hilstrom, Sweden's champion ski-jumper, as well as other famous ski-jumpers from both Canada and the United States.

Canada in 1923 produced more coal, lead, cobalt and asbestos than during any other year since mining records have been kept. The output of coal was in the neighborhood of 17,300,000 tons, or 635,000 tons better than the best previous record, and 2,000,000 tons over that in 1922. The output of copper, nickel, cement and asbestos was also much above that for the preceding years. Gold production was down somewhat, but this was due more to a power shortage than anything else.

As a result of efforts on the part of Hon. J. A. Robb, Minister of Immigration and Colonization, a 20 per cent. preference rate on Atlantic passages for all British immigrants settling in Canada has been arranged to come into effect on March 1 and continue until the end of the main immigration season at the end of November. It will apply only to British immigrants coming direct to Canada from the British Isles, and will affect all lines coming to Canadian Atlantic ports.

Three delightful cruises have been awarded to agents of the Canadian Pacific Railway for services rendered the company during the past year. One of them, J. J. Forster, general agent at Vancouver, will sail on a round-the-world cruise on the "Empress of Canada"; W. C. Casey, general agent at Winnipeg, will spend sixty-eight days cruising the Mediterranean on the "Empress of Scotland," while D. R. Kennedy, general agent at Buffalo, will enjoy a twenty-nine-day cruise in the West Indies on the "Empress of Britain." The trips were awarded by the company in recognition of last year's work in connection with cruise bookings.

The trips were awarded by the company in recognition of last year's work in connection with cruise bookings.

NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U.S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, G. A. Johnson, 595 McDermott Ave., Winnipeg, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

NOTICE

All persons owing accounts to the Prince Rupert Dairy are requested to make settlement forthwith in order that their business may be closed out. 29
