### Premier Accused Of Fighting Private Interests.

Premier Oliver was accused in the legislature of fighting a private controversy in regard to freight rates. That may be Mr. Lister's idea of a private controversy but most British Columbian people will agree that the equalizing of freight rates is a public question and one that can well be fought by the government of British Columbia.

Naturally there is doubt sometimes how far a government should go in interfering with private interests and we are not among those who advocate too much interference. We are not enthused over the manner in which enterprises are conducted by governments. Here, however, is a question in which all British Columbia is concerned. It is purely a question to be fought by the West as against the East. The West is being treated unfairly and the people of the West are bound to unite both through their government and by commercial and other groups to secure that treatment which is our due both from the point of view of equity, and because of our constitutional rights.

### No Good Reason Given For Discrimination.

No good reason has been given so far for the discrimination against this province. The only reason that we have been able to grasp has been that the railroads must pay and that high rates are necessary. If this is true, then we are in complete agreement, except that all parts of the country should be assessed alike. Let the East pay her share of railway rates and not try to prosper at the expense of the West, which is what they are doing today. Equalization is all we ask. Reduction in a general way is out of the question at present. We want a good service and if we are to have that we must be prepared to pay for it. We cannot expect the deficits to come out of the taxes.

### Difficult To Comment On U.S. Elections.

It is difficult for a Canadian to comment on the result of the United States election. The tendency of the day is toward sane legislation. That is shown in the defeat of La Follette who advocates somewhat radical policies. Italy was the first country to revolt against socialistic movements. Then came Great Britain and now the United States has followed in line with the general trend. It is the swing of the pendulum away from state paternalism and seems to indicate that the world is settling down to a more sane basis.

There is in all this a danger that another reaction will come and because of that it is better that a middle course be adopted. It will probably be found that in Britain the new Conservative government will adopt many Liberal principles and move forward with the times. In Italy Mussolini is doing that and it is to be hoped and expected that in the United States the Coolidge government will keep pace with modern developments and the principles of a great democracy.

### All Hope Mill Will Reopen.

It is to be hoped that the negotiations in regard to the opening of the big mill at Seal Cove will be consummated and that work will commence there in the spring. If the city can do anything reasonable to expedite the work, doubtless it will be done. We have now a cannery in the harbor operating and with the mill running and a shingle mill and box factory here we shall be getting into our stride. These industries are needed and with them will come other business that will tend to develop the port.

Mr. Buckley is a good organizer and if is to be hoped he will succeed in getting this business going in the city.

## The Man in the Moon

SAYS:-

FOR most jobs special training is required but anybody seems to think he can hold the job of husband.

IF you are a single girl and think you can earn a living for two, don't fear to get married.

WHAT riles me all up is to see a man puffing out his chest and swelling with importance just because he happens to own a seven tube radio set.

IF a person's memory were good he would never feel that he was much better than the rest of us.

THE U.S. Election is over and Prince Rupert remains as before. Hurrah!

WHAT I like is getting up on cold mornings and putting on the fire for the rest of the family, reprinted Ananias.

THERE was a woman who always got up before her husband and carried him a cup of coffee mornings. It was a fairy tale, but not a Prince Rupert fairy.

## NEW BOOKS IN CITY PUBLIC LIBRARY

The following are a few of the books that have been added to the "public library during the past three months:

### Philosophy

"Modern Religious Cults and Movements," by G. C. Atkins. "Little Essays of Love and Virtue," by Hayeck Ellis. "Outline of Psychology," by William McDougall.

### Sociology

"The League of Nations Today," by Roth Williams.

### Reference

"Petit Larousse Illustré" by Claude Auge. "Canadian Almanac and Directory."

### Science

"Mineralogy," by E. S. Dana. "The Mystery of the Hive," by Eugene Evrard.

"Social Life in the Insect World," by J. H. Fabre. "Claw and Fang," by Ernest Glavin.

"Minds and Manners of Wild Animals," by W. T. Hornaday. "Birds in Legend, Fable and Folklore," by Earnest Ingerson. "Men of the Old Stone Age," by H. F. Osborn.

"Adventures of a Lion Family," by A. A. Pienaar.

"Principles of Geography, Physical and Human," by E. G. Skeat.

"Outline of the Calculus for Science and Engineering Students," by Terry Thomas.

"Elements of Theoretical and Descriptive Astronomy," by G. J. White.

## TENSE MYSTERY IN SCREEN FEATURE TO BE SHOWN WEEK END

**The Acquittal Has Dramatic Climax and is Fine Feature Story**

Sitting through a tense mystery, in which one pits one's wits against the characters of the play is the strange pastime theatregoers will see when "The Acquittal," new mystery picture comes here for the week end.

It's a play of suspicion. The audience suspects every character in the play in turn as evidence points one way, then another, enmeshing men and women in its circumstantial toils until the dramatic climax of the remarkable play. They don't know if the leading man is the hero or the villain, until the climax. They don't know if the sinister butler in the mystery household is a saint or a sinner, until the final scene.

They wonder, and suspect, and suspect some more, without avail.

"The Acquittal" is to the screen what "The Bat" was to the stage, and Rita Weiman's stage play is literally put under a microscope in the astounding offering.

The huge court room, in which several hundred people appear, is one of the outstanding features—with witness after witness taking the stand, the testimony being pictured in action as the

story is told to the jury. Clarence L. Brown, the director, handled the problem of putting a spoken play into pantomime with remarkable skill.

## ENGLISH VICAR IS TO MARRY VILLAGE MAID

Announces His Own Coming Wedding from the Pulpit and Surprises People

LONDON, Eng., Nov. 6.—Nephew of the Bishop of London and vicar of Tenbury Wells, Worcestershire, the Rev. E. F. Winnington-Ingram is to marry a village maid. She is Miss Gladys Armstrong, a pretty girl with auburn hair and blue eyes, who is the village ironmonger's shop assistant.

Although Mr. Winnington-Ingram and Miss Armstrong had been engaged for some weeks they had kept their secret well, so well, that even the girl's best friends were surprised at the news, which was announced from the pulpit by the vicar himself. The vicar's fiancee is one of three daughters whose home is a simple cottage near the parish church. Her father is gardener to one of the leading parishioners.

## SKIDEgate INLET

Everyone is very pleased to hear that the crew of the fishing schooner Azores turned up safe, when it was first reported that they were lost. The Skidegate fishermen wish to thank the secretary of the Deep Sea Fishermen's Union, J. H. Meagher of Prince Rupert, for the splendid way he tried to locate the men.

J. P. Dover is moving into his new residence next week.

Miss Road and Miss Andrews, both of the Methodist Mission staff at Skidegate Mission have been here visiting Mrs. Stevens.

Capt. G. Hann of Sandspit was here visiting friends for the week end.

SKIDEgate SETTLERS.

## Ten Years Ago in Prince Rupert

November 6, 1914.

Scenes of patriotic fervor marked the departure of Prince Rupert's first contingent this morning for Victoria where they will enter training in preparation for active service. Thousands participated in the send-off and, as the steamer Prince George pulled away from the G.T.P. wharf, a radiant sun burst through the clouds to shine on the most notable event in the history of Prince Rupert.

Johnny O'Leary and Rough House Charlie Burns will meet in a twenty-round boxing contest at the National Sporting Club tomorrow night for the lightweight championship of Canada.

The clergy and other prominent citizens took part in the ceremonies at the Exhibition Hall last night on the eve of the departure of Prince Rupert's first contingent. Mayor Newton presided.

### A SLIGHT ERROR

"How did you happen to say that Blank is worth a billion?" "I meant a million, but I had a cold in my head."

## AVIATION NOT YET PERFECTED

Great Advances May be Expected Before it Becomes Popular, Says Officer

LONDON, Nov. 6.—"The young man of 25 years hence will be ashamed to confess he cannot fly, but his machine will bear very little resemblance to the best air buses of today. While admiring our courage, he will wax sarcastic over our feeble efforts."

This is the opinion of Professor A. M. Low, after witnessing the light aeroplane trials at Lympne. Prof. Low was a major in the Royal Air Force during the war, in charge of experimental work, so therefore is qualified to express an opinion.

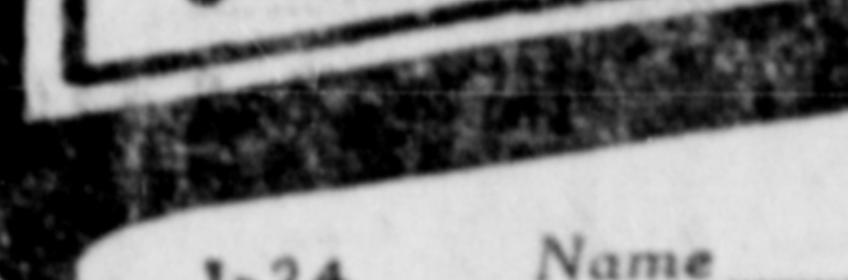

"The fact is," says the professor, "the trials of the light aeroplane have shown up its shortcomings in a rather brutal way. The present day 'glider' is noisy, dirty, uncomfortable, dangerous, grossly unreliable and far from foolproof. All this will have to be changed before flying becomes popular."

"England is not conveniently flat, and our weather conditions are proverbially troublesome; indeed, on an average gusty day, it is a moot point whether the over-loaded, under-engined plane of today, is not considerably more dangerous than the old type on which pilots used to practise in 1916."

"Therefore to pretend that in

## Cheese Salad

For every part of the meal there is a tasty nourishing cheese dish—easily prepared.

## In the Letter Box

### THANKS COMPANY

Skidegate, Nov. 1, 1924.  
Editor Daily News,

Price Rupert, B.C.

The fishermen and settlers in Skidegate Inlet and the East Coast would like publicly to express their appreciation of the service that the Canadian Fish & Cold Storage Company gave them during the coho packing season, especially in the matter of packing the mail over.

On account of the disgraceful service which they have now to put up with in the matter of steamboats, the bringing and sending of mail by the packing boats was something that the public in general are indeed thankful for, as well as the courteous treatment received from the two popular skippers, Capt. Bert Hanson and Capt. Svendson.

SKIDEgate SETTLERS.

## WELL KNOWN TRAVELLER PASSED AWAY IN SOUTH

W. A. Allan Often Visited This City and Was Here Only Recently—Father of Mrs. M. Albert

W. A. Allan, manager of the Dominion Rubber Co. and well known in this city in that capacity, died this week at Vancouver at the age of 65 years. It was only a few weeks ago that he paid his last visit to Prince Rupert. He was the father of Mrs. Mitchell Albert, formerly of this city and now residing in Vancouver. Mr. Allan's funeral took place yesterday in Ocean View Cemetery, Vancouver.

## Buckley's Bronchitis Mixture

Will relieve Bronchitis, Coughs, Colds, Hoarseness, Asthma, and all affections of the Throat, Chest and Bronchial Tubes.

We have a limited number of samples of this mixture which will be given away to adults only.
