"I was Greatly Distressed With Pains in the Back"

Mr. Alfred McNeill, Chapel Rock, Alta., writes:

"During the winter of 1920-21, I was greatly distressed with pains in my back and felt tired and depressed most of the time. Particularly during the night I was troubled with frequent urination, some nights having to rise almost every hour. I tried several different treatments without success, until finally I began using Dr. Chase's Kidney-Liver Pills, and they relieved my con-

dition before I had finished the first box. I am feeling better this summer than I have for years, and although in my 67th year, can work all day without any undue fatigue."
