A Solid North

Kergin of Atlin, Pattullo of Prince Rupert, Manson of Omineca, Perry of Prince George and Yorston of Cariboo by co-operation and unity of action were able to accomplish a great deal for Northern and Central British Columbia.

In the next House the North will be stronger by two seats, namely Skeena and Mackenzie, while Lilloet, adjoining Cariboo, seems certain to go over to the Liberal column. These eight seats cover three quarters of the area of British Columbia. By standing together, the representatives of these eight ridings can put up a strong front in the

House. As matters stand, the only way this can be accomplished is by the people electing eight Liberals, which there is every indication they are going to do. The slogan for the North should be "A Solid North."

Thinks Colonization Scheme Is Feasible for Industrious People

Exceedingly pleased with condictions now prevailing on the Queen Charlotte Islands and par ticularly on Massett Inlet where greater period of prosperity than ever is now being enjoyed is Charles Harrison, pioneer settler and investor of Massett, who is now in the city on his way to England.

Mr. Harrison in an interview with the Daily News last night said that he was more than ever confident that a great period of progress and prosperity was in store for the Queen Charlotte Islands. If the gold sand experiments now being conducted there proved successful it would mean the establishment of one of the biggest industries in British Col acres to be developed.
