# PREMIER IS WELL RECEIVED IN COURtenay CHINESE REDS SET FIRE TO CITY OF CANTON WHERE SITUATION SERIOUS

## Prime Minister's Party Delayed by Storm When Bound South for Comox

Get Great Reception at Courtenay and Cumberland and are in Victoria this Afternoon

(Special to Daily News)

COURTENAY, Oct. 16.—The Premier and his party got a dusting on the way south on the destroyer Patrician and some of the members of the party were bowled over by an attack of mal de mer. They were rather a sorry looking lot on their arrival at Comox wharf. However, they received a genuine welcome from the citizens of Courtenay, Comox, Cumberland, Sandwick and the other centres of population here and very soon were themselves again. They were surprised at the extent of the farming country here and at the general appearance of prosperity. They got a splendid reception everywhere and especially at the mass meeting in Cumberland where they received an ovation from the coal miners. The party expects to be in Victoria today.

(By Canadian Press)

COURTENAY, Oct. 16.—Right Hon. W. L. Mackenzie King and members of the party disembarked from H.M.C.S. Patrician at Comox yesterday morning. The last part of the voyage from Prince Rupert was made in the face of a southeast gale but the Premier and his colleagues landed none the worse for the experience.

Yesterday afternoon the Prime Minister was formally welcomed to the town and district by Acting Mayor Simms and later at a civic dinner held here. Afterwards the Premier drove to the town of Cumberland, six miles distant, where he addressed a public meeting.

Premier King received a delegation from the returned men under the Soldier Settlement Board in the Comox Valley.

Today the party is in Nanaimo and later is expected to reach Victoria where they are due at a reception in the afternoon and at a dinner in Government House in the evening.

Tomorrow the Liberals of the city will entertain the Premier and in the evening he will address a public meeting.

## Chinese Reds are Burning City of Canton; Looting is Proceeding and Many Leave

HONG KONG, Oct. 16.—Fires started by Chinese Reds are burning fiercely in five different parts of Canton, according to word received here this morning. The situation is serious as the buildings are of an inflammable nature and are crowded close together. Many of the streets are so narrow that it is possible for those living upstairs to reach each other from the windows.

The method adopted by the Reds is to pour kerosene into the open gutters which usually run down the centre or at the side of the narrow streets. This they ignite and the buildings catch fire easily.

Lawless bands are looting the stores and the whole city is very much disturbed.

The river steamers, of which there are a number plying between Canton and Hong Kong, are crowded with refugees coming here to escape the dangers of the rioting.
