Fine dishes and dainty hands

IT is no longer necessary to have your hands show by their coarseness and redness that you do your own dishes. Lux has changed that. With its quick, generous suds, your dishes are made sparkling and clean in no time. Yet Lux is as easy on your hands as the finest toilet soap.

Keep a package handy on your kitchen shelf —use it for your everyday dishes as well as for the dishes you use on special occasions. You'll be delighted with their appearance.

Lux is sold only in sealed packets —dustproof!

Here and There

The Canadian Pacific coastwise steamer "Ena" has carried from the seven plants operating on Barclay Sound over 12,000 tons of salt herring since the present season opened in November. This represents almost half the season's output, which will approximate 26,000 tons.

The heaviest immigration to Canada experienced during the last ten years is looked for this year. Already the arrivals are running ahead of those for the same months in 1923, those from European countries being especially large. The enquiries from prospective settlers in the United States are numerous.

Canada exported 6,532 pairs of leather footwear during January, 1924, according to a report of the Bureau of Statistics. Of these 2,179 went to the United States, 2,038 to New Zealand and 2,031 to China and Japan. Bermuda, the Straits Settlements and Newfoundland took the rest. The value was $21,301

Canadians imported 5,326,567 pounds of tea last month, or about three-fifths of a pound per head of population. The value of last month's tea imports was $1,661,176, and for the twelve months ending January 31, the value of the 43,228,119 pounds imported into Canada was $13,253,642. The bulk of it came from India.

Special trains of immigrants have recently carried lunch counter cars similar to those used on the harvesters' trains last summer. It is understood that the Canadian Pacific have inaugurated this as a feature of all long distance immigrant trains, thus doing away with the necessity of the newcomers providing their own food or using station lunch counters en route.

The completion of plans for the development of hydro-electric power during the current year will add 900,000 h.p., to the present total of 3,228,000 h.p., already installed in Canada. This additional power will be used in British Columbia to assist mining and pulp industries in Manitoba to supply rural needs, and in Ontario for gold-mining and other industries. In Quebec the chief developments are in connection with the pulp and paper industries, and farther east, in the Maritime Provinces, for public utility purposes.

There is every indication that the dearth of the domestic servant in Canada will be greatly relieved in the course of the ensuing few months. Miss Esther Mackie, head of the Woman's branch, Colonization department, Canadian Pacific Railway, London, announces that "Specially conducted parties of domestic servants are being organized under the Empire Settlement Act in conjunction with the Canadian Government for the conveyance to Montreal and to Western Canada."

One of the most attractive features of the Canadian Pacific Railway Company's pavilion at the British Empire Exhibition, Wembly, will be the illuminated exterior panels, and the Neon lighting effect, similar to that used at the Coliseum, London, which is wonderfully penetrating and effective under all atmospheric conditions. The interior of the building displays, through working models and magnificent oil and water color paintings, the many ramifications of the great transportation system as well as the natural resources of this country.

According to E. N. Todd, freight traffic manager of the Canadian Pacific Railway the year 1924 will be a banner one as regards foreign capital coming into the country. "During the year 1923 a number of silk manufacturers from England and the United States decided to locate in Canada, and from present indications this particular movement is only in its infancy. At the present time our industrial department is in correspondence with a very large number of manufacturers who are seriously considering locating in Canada."

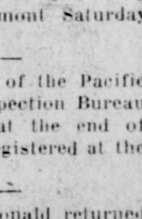
The Gazette this week tells of the incorporation of two new companies, the Portland Canal Gold Fields Syndicate, a specially limited company capitalized at $100,000 with head office in Vancouver and the Barite Gold Mines Limited capitalized at $250,000 with head office at Victoria.

Women Are Experts Too



It is indeed gratifying to get first-hand information on how people like made-in-British Columbia foods. We have found only two homes in six weeks where they use jams not made here. There is a strong preference for local made boots. And they are nearly all purchased because of superior quality. In our own line we find that almost four in five use Pacific and it is generally because they like its fresh, natural flavor.
