DAILY EDITION Wednesday, June 11, 1924.

Prosperity Now Faces This City.

An era of prosperity seems to be now opening out ahead of this city and district. Everywhere there is the note of optimism abroad and the news of yesterday put the climax on the situation. Only one thing more is desired in the immediate future and that is news that the ship construction is to proceed under the contract let to the local drydock as announced in this paper some time ago.

Already considerable building is going on in the city and this will increase now that the announcement has been definitely made of the building of the elevator. The eyes of the world will be turned in this direction and nothing will hold us back.

Credit Is Due To Our Own Member.

The greatest credit is due to Fred Stork, member for Skeena, for the outcome of the elevator campaign. He has worked in season and out of season to secure this and everyone here, both political friends and political opponents, will be glad to know of his success. While we disagree at times over politics, we all agree that we want Prince Rupert to prosper and we can unite on occasion to press the claims of the city.

Next to Fred Stork we cannot help but mention Fred Dawson, director of the railway company, Hon. T. D. Pattullo, provincial minister of lands, and Hon. A. M. Manson, attorney general, all of whom have made repeated representations to Ottawa in regard to this matter and have taken it up personally with the ministers at Ottawa, most of whom they know personally. Those who wish to vote against Mr. Pattullo here will do so and we have no quarrel with them, but they will admit that in this case he deserves some of the credit that is coming this way. Both he and Mr. Manson and Mr. Dawson have been willing to throw down their work at short order and go east when duty called. We are also glad to include among the men who helped in a lesser way such a good Conservative as C. H. Orme, who went to Ottawa with S. J. McLeod, president of the Board of Trade, and others at their own expense and helped to forward the good cause and show Ottawa that we had public spirited citizens who would give of their time and money in the public interest.

What Is Next Step To Take.

The first step for Prince Rupert people to take now is to set their own businesses in order so that they may be prepared to care for it as it develops. Watch that prosperity does not spell ruin. Keep up with the times and hold the business that is offering and above all give service to the community.

The next step will be to take advantage in a public way of all the opportunities that offer to advertise the city and the grain route and the shipbuilding plant. Also this is a good time to look around with a view to inducing other industries to come here. Things often come to those who wait, but more often to those who work and at the same time watch for the main chance. We must keep for Prince Rupert the name of being a live town.

And Not Forget Political Campaign.

In the midst of our rejoicing over the elevator prospects we must not forget that we have a political fight on hand and that it is necessary to keep the old town moving ahead. Stagnation is one of the last things any of us want. We have been served well in the past by men who have the interests of the district at heart and who have the respect of the whole country. We have been served by statesmen rather than by politicians.

This is no time for a change. Let us keep moving ahead and not take any risks. Can't we just forget our political bias for once and support the men who have stood by us. Pattullo and Manson have fought our battles provincially, just as Stork has fought them in the Dominion. We may not always have agreed with all they have done or the way in which they have done it. We may feel aggrieved at some small matters but this is the time to play the part of big men and elect the men who can serve us best.

THOMAS DEASY TELLS VICTORIA BOARD OF TRADE ABOUT NORTH

Indian Agent Visits Aldergrove And Will Send Totem Pole to New Westminster

VICTORIA, June 11.—After a separation of forty years, two old timers met at Aldergrove this week when Thomas Deasy, former Indian agent for the Queen Charlotte Islands, visited Philip Jackman, one of the two surviving members of the Royal Engineer Company who helped to establish New Westminster in 1859. Accompanying Mr. Deasy to Aldergrove were Mr. and Mrs. Ralph Wilson, B. W. Shiles and W. H. Keary of New Westminster. Mr. Jackman is in his ninetieth year and is back in good health following a somewhat serious illness.

Mr. Deasy, who recently retired from his government post at Massett, and has just come to Victoria to retire, is a lifelong friend of Mr. Keary. Both are sons of Crimean War veterans, both were born in Portsmouth, England, came out on the same boat together, lived near each other at Sapperton and later learned the printing trade. Mr. Deasy stayed in New Westminster for ten years and afterwards removed to Victoria where he was fire chief for fifteen years.

At the board of trade luncheon Mr. Deasy spoke for a few minutes on conditions in Northern British Columbia and promised to return at some future date to go into more details connected with his work among the Indians.

Mr. Deasy, who has arranged for the construction of a totem pole, forty-four feet long, announced that this pole is now ready. Arrangements are being made for the pole to be brought to New Westminster and to be erected in one of the city parks.

NAAS RIVER PEOPLE HELD CELEBRATION

Budget of News From Rich Valley of North: Crops Look Well: Indians go to Canneries

(Special by Mail)
AIYANSHI, June 11.—May 24 is always a big day for the Indians of Aiyansh. This year teams from Kincolith and Greenville visited them to try conclusions at baseball, football and basketball. The sports commenced on Friday, May 23, and continued until the following Wednesday when the visitors left for their homes down the river. Most of the white settlers came in on the 24th to see the sports.

Kincolith won for "keeps" the football cup, having won it for three times, Greenville securing the cup for baseball.

Gardens are looking well as there have been several good rains. Weather has been cool for the last two weeks but with warm weather it is hoped to equal the bumper crop of last year.

Mrs. Gordon, mother of "Charley" Gordon, has left her home in Victoria and come to make her home with her son at his ranch "Irene."

Dominion Constable Newham and Mrs. Newham expect to leave Aiyansh for the mouth of the river some time this month. We understand Kincolith will be his headquarters.

Mrs. Stuart, wife of "Bill" Stuart, has been seriously ill for the past six months following a slight stroke of paralysis. Two weeks ago she was taken to the hospital at Port Simpson. Last report spoke of a slight improvement.

Mr. Olson has returned to his ranch at Greave Harbor bringing a fine horse to help with the work.

Charley Gordon has returned via the Terrace trail bringing with him a fine span of horses. Mr. Phillips left by the trail for Alice Arm on June 2. He expects to be working there for the summer.

About sixty men and boys from Aiyansh leave the middle of the month for the Skeena canneries. The rest go to Arrandale and Naas Harbor, Mill Bay cannery is not operating this year.

Rev. Oliver Thorne, Church of England missionary at Aiyansh, has received from Victoria his commission as justice of the peace.

The Man in the Moon SAYS:-

I'd hate to be a Jap. It is said that there are no Japanese cuss words, and I'm sure I'd be too patriotic to swear in English.

IT'S time to be studying up the baseball dictionary for the latest terms of abuse.

CARPENTERS ought to be very busy these days. Political fences are being constantly repaired and the little hammer of the opposition comes along and pounds them continuously.

A HICK town is one where they conduct a political campaign by writing on the fences and sidewalks.

A CAUSE is a very weak one when it has to be bolstered up by the same hand that writes obscenities in obscure places.

THE way to enjoy a political game is to sit on the fence and cheer while the opposing sides run away from each other.

THE Provincial party Tory Labor candidate is over at the Queen Charlotte Islands telling the people how he likes the pink tea Bowser Tory candidate.

IT is commonly reported that the literary section of one of the campaign committees has been working day and night trying to write a political essay on "What Newton has Done for Prince Rupert." It will be published later.

THE worst knock Pattullo has got so far was the diverting of the opposition guns from him to T. Ross McKay. It seems that the political fight is now between the Provincial Tory Party and the Bowser Tory Party as to which shall have second place.

BOWSER lives in a palatial residence at the top of Nob Hill, Victoria, and his candidates are expected to hobnob with him there at dinners and afternoon teas. Oliver lives in a humble cottage among the other workers in a modest part of the city, takes off his coat when he sits in the house and often receives visitors in the kitchen. Yet efforts are being made to line up labor with the rich man of Nob Hill. To the Man in the Moon it appears funny.

Ten Years Ago in Prince Rupert

June 11, 1914.

In a statement regarding the recent disbandment of the Earl Grey's Own Rifles in Prince Rupert, Hon. Sam Hughes, minister of militia, states that the action was taken because the regiment was purely a Liberal political organization.

Local businessmen state that Prince Rupert will lose much as a result of recent legislation which reduces the number of salmon fishing licenses issued to Indians in the district.

The license commission met yesterday and renewed the liquor licenses for the Royal, Savoy, here until fall.

Satisfies that healthy candy-appetite!

A keen out-of-doors appetite welcomes the nourishing goodness of wholesome candy like Neilson's Macaroon Bar. Smooth milk chocolate with crisp coconut flakes to make it deliciously "crunchy"—just the thing to allay that out-of-doors hunger. Neilson's Macaroon Bar is a big 5-cents worth of candy-value.

Neilson's Chocolate Bars
Over Forty Delightful Kinds

BEER IS A FOOD

For years it has been prescribed by physicians as a tonic. Beer is also the weapon with which the true temperance worker fights spirit drinking.

The temperance forces of Great Britain fought spirits with beer and in twenty years cut the per capita consumption of hard liquor in half.

The temperance forces of Switzerland fought spirits with beer and reduced the national drink bill by more than 60 per cent.

The temperance forces of Norway and Sweden fought intemperance with beer under the Gothenburg system where unusual facilities were offered beer drinkers and the consumption of spirits fell to a negligible minimum.

Does It Not Stand To Reason

THAT the light, health giving brews from our own B.C. industries, manufactured from the barley and hops grown on our own B.C. farms is better for our people than imported distilled spirits? If the beer plebiscite carries, facilities will be given by the government for consuming these light, nutritive beverages at a palatable temperature and by the glass, so that one need never purchase more than is desired for immediate consumption.

Vote for the Beer Plebiscite

and an even more sober British Columbia

MODERATION LEAGUE OF BRITISH COLUMBIA.
