

WESTHOLME THEATRE

Monday and Tuesday, 7 and 9 p.m.

CHARLES RAY in

"The Girl I Loved"

The heart story of a great poet visualized on the screen by a great actor. James Whitcomb Riley's youthful romance picturized by Charles Ray at his very best. A soul-gripping story of real life and real people who loved much, suffered, forgave. A picture replete with tremendous emotion, quaint comedy, rare beauty and exceptional acting. The most impetuous love scenes ever filmed with Charles Ray as the supreme lover. Delightful settings. Charming natural surroundings. Great cast. Patsy Ruth Miller, Ramsey Wallace, William Courtwright, Gus Leonard, Edyth Chapman and many others.

"The New Leather Pushers"

lay the entire project until the chapter is ready to proceed.

In connection with the fire escapes that it is proposed to install in the building, W. H. Shortridge appeared before the board. He gave certain estimates but did not have his plans and figures complete so it was decided to await these before putting the matter before the city council which is to bear the cost.

MONTHLY REPORT OF ESSINGTON SCHOOL

High Marks Made by Number of Pupils at Skeena River Cannery Town

Following is the report of Essington School for September—

Number enrolled, 36.
Perfect attendance—Aileen Binns, Dorothy Hardie, Shige Kameda, Toshi Kameda, Verne Lehto, Leo Lehto, Vieno Lehto, Gordon Letnes, Gladys Letnes, Tokio Morikawa, Oniyo Nakamura, Seichi Abashi, Shige Ohashi, John Snellman, Peggy Taylor, Robert Vick, Anton Vick.
Merit cards won this month for perfect marks—Anton Vick, spelling, 100 per cent; Yoshio Kishimoto, arithmetic, 100 per cent; Shizui Ohashi, arithmetic, 100 per cent, spelling 100 per cent.
Those ranking 1st, 2nd and 3rd respectively in various classes and average marks made:

BRITANNICA EDITOR DEAD

LONDON, Sept. 30.—Hugh Chisholm, editor of the Encyclopedia Britannica, died yesterday.

WOULD HAVE DIGBY QUIET

Local Radio Fans Petition Against Use of Spark System During Evening

Local radio fans are preparing a petition which will be sent to the Department of Marine and Fisheries, Radiotelegraph branch, Ottawa, protesting at the disturbance caused by the government spark set at the Digby Island wireless station and asking that at least two hours each night be set aside clear of this interference so that the many receiving sets in the city may be enjoyed.

The petition points out that, after spending considerable sums of money in buying or constructing sets in the hope of enjoying concerts, it has been found impossible to get the best use of the equipment through the incessant interference that is caused by the Digby Island set.

"Some months ago," it continues, "the government, knowing the interference caused by the spark set, had installed in a number of places in B.C. a continuous wave transmitter, this being a more up-to-date method of sending and one in which the interference as caused by the spark set is practically done away with, there being no ear splitting crashes that drown out all music or voices but a slight clicking of the sending key which does not interfere with the receiving of radio concerts. At present, when the government spark set at Digby Island is working, it is impossible to hear a thing but the crashes of the spark set. If this was only once in a while it would not be so bad but lately it seems to be working the whole evening, night after night. Digby Island was one of the places having a new continuous

CHILDREN'S WARD AT HOSPITAL DEFERRED

I.O.D.E. Not Yet Ready to Proceed With Work—Estimates on Fire Escapes are Received

It was decided by the hospital board last night to delay reconstruction work at the hospital involved in the establishment of a children's ward and the moving of the case-room. The cost of the children's ward, it is estimated, will be \$1200. The Hill 60 Chapter, I.O.D.E., which has undertaken its establishment, has not yet raised this much money so the decision was to de-

ATLIN AVENUE LOCAL IMPROVEMENT BYLAW

Exception Taken to Dividing up the Work on Street and Measure Delayed

The final adoption of the local improvement initiative bylaw to provide for the paving of Atlin Avenue between Second Avenue and Seventeenth Street was deferred for a week by the city council last night so as to ascertain if this bylaw may not be consolidated with that providing for the paving of the west end of Atlin Avenue which has already been passed. On the bylaw coming up for third reading at last night's meeting of the council, Ald. Collart took exception to the dividing up of the work on the same street in two parts. The cost, he thought, should be equally distributed among all property owners on Atlin Avenue. This view was concurred in by other members of the council and accordingly further progress on the bylaw was delayed pending the receipt of further advice as to cost, etc.

The bylaws providing for the paving of Ninth Avenue from McBride Street to Eighth Avenue were finally adopted.

Mayor Newton said it was the intention to complete the paving of Atlin Avenue West this year and the eastern section next season.

ROAD GRADING WILL BE PROCEEDED WITH

City Council Received Reply Last Night from P. Phillip, Deputy Minister of Public Works

"You may be assured that the provincial government will proceed with the grading of the road referred to in due season. In the meantime, there is no need for the municipality to delay taking action," stated a letter with reference to the Kalen Island road addressed to the city council by P. Phillip, deputy minister of public works, and read at last night's meeting.

The letter was referred to the Board of Works and the matter will further be taken up with

wave transmitter installed but, since all the privately owned wireless stations such as Anyox, Buckley Bay, Ocean Falls, etc., are still using the old spark system, the local station has to use its own spark set to send to these places.

"Under these circumstances it means that we are going to be no better off for the old spark seems to be hitting it off stronger than ever and we cannot expect the government to make these companies changed over to the continuous wave on account of the heavy expense, although the United States government did this.

"We feel, however, that we are not asking too much of the government to arrange with these companies to give us two hours each night clear of spark interference which will still leave 22 hours each day for the sending of the company messages. The United States government has gone one better than this in forbidding the use of the spark so,

under the circumstances, we hope some arrangement can be made which will be of help to us."

TIMBER SALE X 6512

Sealed Tenders will be received by the Minister of Lands not later than noon on the 16th day of October, 1922, for the purchase of License X 6512, to cut 100,000 feet of Hemlock, Spruce, Cedar, and Birch, 22,985 lineal feet of Spruce, Pines and Fir, on an area situated on the west side of the Coast District.
