"Child's Eyelids Inflamed Stuck Together and Bled"

Mr. E. P. Kimball, Entwhistle, Alta., writes: "Our little girl from birth was troubled with inflamed eyelids and in spite of several remedies, grew worse until at the age of sixteen months her eyes could not be opened after sleep without bleed-

ing, a waxy discharge sticking the lids together and adhering with great tenacity. The child's grandmothers were consulted by mail, and both responded with a little sample box of Dr. Chase's Ointment. These were used as directed, and lasted until we could obtain a further supply from Edmonton. Improvement was very marked from the first application. The waxy discharge was easier removed and did not reappear. Inflammation subsided and has not returned."

Prize Editorial Article Today.

The editorial article today is written by Miss Zorka Zutilovitch, the winner of the prize offered by Hon. T. D. Pattullo for the best editorial article to be written by a pupil of the High Objects to Railway Being Built School. Miss Zutilovitch took a prominent part in the preparation of the recent High School number of the Daily News and her article today is an excellent one, a credit to the school and to herself:

SPECTATORISM

Times change, views change, new temptations and follies the following letter to the Citicome to usurp the old, but the one great sin that never dies but zen. Ottawa: instead grows darker and more menacing is Spectatorism. In every walk of life, in every act, there are only a few that partici- future condemnation will pate while many look on.

In religion as well as in the lower things of life one sees given, if the Canadian National a few ardent workers while scores bustle around making a lot of Railways be content with touchnoise over some trifling act which they have done and which is ing the extreme fringe of this but a hollow mockery of what they might accomplish if only vast country, leaving a subsethey would learn to concentrate on that work.

You go to a baseball or football game, you see there a few men playing the game while thousands watch and wonder at cent of the whole. their prowess.

The businessmen are looking for workers and not shirkers. It is the ones who work that enjoy the fulness of life, lical value to the Peace River disand when the pay envelope is handed out the fattest one will trict of British Columbia, and can always be found, not in the hands of the spectator but in the only serve the vast proportion of hands of the participant.

The Scripture has it: - "Many are called but few are chosen." Because the sin of Spectatorism has gripped the many not be far distant, when a subthey have become mere automats where real live men and

women are wanted. In business, sports, literature, art, science and education heart of the Peace River district, the number of co-workers has been gradually diminished. How many great poets has the world had? How many Rafaels? But umbia equally well, in a direct coming down to the commonplace things how many real workers line west to the coast. in any field of labor?

Yet the workers go on, the few that we have, and when another like themselves makes a mistake or fails in some duty is not the worker but the spectator who mocks him.

If you watch a trained team play football you will see there co-operation. One man alone never won a game, and they that play the game know this, and co-operate. It does not matter to Prince George or thereabouts, stands to see it become futile. them who scores the touchdown as long as it is for the "home thence to Prince Rupert, transteam." What a lesson is brought home to us there, to help others to make a success of what we undertake so that we may all play the game.

Examine yourself well, and if you are a spectator get out consumer to a revenue producer, wise as we opine that a well or- engines, and lazz. And after all of your rut and try to be the human that God intended you to be; but if it is too much of an exertion to try and be a worker, if you must hold yourself aloof from life, adopt the slogan that

URGES LINE BE BUILT

The people of the British Columbia section of the Peace River want the railway built to them from British Columbia and not from Brule as proposed. This has been made clear again and again and especially so last night when Alexander Bank, being located in the Board of Trade listened to a letter written by the president of the Board of Trade at Pouce Coupe. The letter was accompanied by a resolution especially urging the building of the line Prince Rupert the port of shipment for the product. The letter!

The Letter

I am enclosing herewith a copy of a resolution passed by the Pouce Coupe Board of Trade re railway facilities for the Peace

We take it that this question sary expense your committee ganizations in the district, and suggests that the lights be plac- which Prince George is advocated, one on the edge of the rock ing, and which we are given to ledge off Grindstone Point and understand you are supporting, a the other on the outer edge of promise of great things for the Your committee is further of Columbia and Alberta and the opinion that it would be through them for the city of desirable to have a spar placed Prince George and for the port of Prince Rupert.

We have here, as the resolution states, millions of acres of the richest agricultural land in the Dominion. Some hundreds of OF TRADE PROTESTS thousands of acres of this land is now in a high state of cultivation. and some thousands of acres we regret to say has been forced back into its wild state of unproductiveness by lack of railway transportation, and much more of this land will become idle within the next few years if the needed railway relief is not secured.

Through Prince Rupert

With the line of railway secured millions of bushels of grain will seek outlet through the port of Prince Rupert, and with that small way in forwarding the seport as a busy industrial centre curing of this proposed railway. many smaller agricultural areas closer to it will find ready market for their produce. Vast quantities of mineral, forest, and other wealth will be made accessible for development, and will he exploited, and millions of settlers will be provided with prosperous homes and lucrative employment,

Our resolutions, deal only with the agricultural possibilities of "Cause all I do when wifie talks the Peace River country as this is primarily a farming district, and we are relying on other boards of trade to stress the mineral and write a love song and here is other resources of the country to what came of the effort: be tapped, both because they are likely to be more familiar with them, and because the dire need here is relief for the settler who has invested his all, in some cases considerable; has spent vor of one going direct through long years of arduous labor in pioneer development, and now
