

WESTHOLME THEATRE

Monday and Tuesday, 7 and 8 p.m.

The George Melford Production

"The Dawn of a To-morrow"

A love-melodrama adapted from Frances Hodgson Burnett's novel, filmed amidst the lights of London—fast-moving, thrilling, heart-appealing and above all, optimistic. Here's a tale of a pretty waif who made her own rules and worked wonders. The story of a ragamuffin of the slums and her adventure in happiness with England's greatest man. The settings include London society drawing rooms, the slums, London on foggy night, the Limehouse river front and behind the scenes in British politics.

Superb cast. Raymond Griffith, Jacqueline Logan, Roland Bottomley, Guy Oliver, Alma Bennett and others.

COMEDY CARTOON—"FELIX STRIKES IT RICH."

MORE THAN HALF OF HALIBUT OF COAST LANDED AT RUPERT

The Pacific halibut fleet, augmented by many new vessels and equipped with modern engines, last month gave an interesting demonstration of its producing capacity under favorable conditions, says the Pacific Fisherman. Arrivals at the principal Pacific ports for August were among the largest, if not the largest, for any month on record, amounting to nearly six million pounds. By far the heaviest arrivals were at Prince Rupert, where landings for the calendar month were 3,842,500 lbs., setting a new record for that port, and a number of fares were diverted to Ketchikan for freezing. At the latter port also the arrivals were exceptionally large, amounting to nearly a million pounds.

Seattle arrivals were nothing extraordinary, fares by fishing vessels being nearly 90,000 lbs. less than in July, while arrivals of boxed fish from Alaska were nearly double those of July, though much less than for May or June. The total of No. 1 fish was noticeably less than for three months previous, while chickens showed a slight decrease compared with July. The number of fares was a little larger, with a corresponding decrease in the average.

FISH BY-PRODUCTS PLANT AT SIDNEY

Brackman-Ker Milling Company Controls Outfit Just Starting Operations on Vancouver Island

The new fish by-products plant at Sidney, B.C., owned by a subsidiary of the Brackman-Ker Milling Company of Victoria, was delivered about a month ago, says the Pacific Fisherman. The installation has been under way since then, and the outfit was expected to start operation early this month. The unit is one of the new vacuum type made by the California Press Manufacturing Company, and described in Pacific Fisherman for March. The most interesting feature of the process is that, by using a steam-jacketed vacuum cooker, the valuable materials formerly carried off in the press-liquor are saved and included in the fish meal. In view of this innovation, which is a marked departure from the processes formerly used on this coast, the performance of the installation will be watched with great interest.

The plant is located in the building formerly occupied by the Sidney Canning Company at Sidney, Vancouver Island. It was reported some time ago that the provincial authorities had refused permission for the plant to operate, but this is denied by Dr. H. E. Young, provincial health officer, who states that it conforms in every way with the government regulations.

SUPERINTENDENT OF UTILITIES JUSTIFIES PAYMENT OF 57 1/2c PER HOUR TO LABORERS IN DEPARTMENT

Ernest Love, superintendent of utilities, submitted a report to the city council last night justifying the payment of 57 1/2c per hour instead of 50c to laborers in the utilities department.

The resolution referred to was as follows:

"Moved by Ald. Collart, seconded by Ald. Perry, that regularly employed men on waterworks department, street repairs, sewers and pole lines be paid at the rate of 57 1/2c per hour, time and a half for overtime; work on Saturday afternoons to be permitted but not to be considered as overtime; rock drilling and blasting when not done by contract to be at 57 1/2c per hour with overtime as hereinbefore stated; common labor 50c per hour."

Ald. Perry said that the intention of the 1923 motion had been to pay common labor 50c per hour. He believed that this

should be followed so as to avoid discrimination. That was what public works laborers were paid. Any helper, he felt, should be considered as common labor.

Ald. Macdonald took the view that the 50c rate was meant for transient labor. This was most permanent and involved blasting an digging post holes which was not in the category of common labor.

Ald. Smith felt the resolution spoke for itself. Rock drilling and blasting were not considered as common laborers and were entitled to more money.

Report Adopted

Ald. Casey, speaking for experience he had at this type of work, felt that it developed a certain class of skill. There were not many men involved and he felt it was not inconsistent to award the 57 1/2c scale. He was in accord with the policy applied by the superintendent of utilities and moved that the report be adopted. The motion was carried.

VANCOUVER VETERINARY KILLED ELDERLY MAN WITH HIS AUTOMOBILE

VANCOUVER, Sept. 23.—David Baker, an elderly man from Manitoba here on a visit to his daughter, was struck by an auto driven by Dr. R. G. Gray, veterinary surgeon, and died from injuries received yesterday. A charge of manslaughter was laid against Gray and bail was set at \$4,000.

and thence northerly to low water mark; thence westerly following low water mark 80 chains; thence southerly three chains; thence easterly 80 chains to point of commencement and containing 15 acres more or less.

GEORGE W. DOWLING, Applicant

DAVE RUTTEN, Agent

Date, June 8, 1924.

BALANCE UNSPENT SECTION 1 BYLAW STREET GRADING

Respecting a letter recently received by the city from M. L. Adous, owner of property at Park Avenue and Eleventh Street, asking that grading be continued on the street leading to his property, the city council last night received the following report from the city treasurer on bylaw 19 (section 1 grading):

Amount expended

June 1916 \$8624,899.01

Loss on bond sale 92,500.00

Interest 4,289.35

Debentures sold 8721,688.36

Balance unexpended 740,000.00

Balance unexpended 18,311.64

The mayor suggested that the report be referred to the board of works for report as to whether or not the unexpended balance should be spent. This was done.

ISLAND ROAD

Ald. Casey Inquired at Last Night's Council as to What Government Intended Doing

Ald. Casey had some inquiries to make at last night's council regarding negotiations between the city council and the provincial government in connection with the road to Galloway Rapids. The board of works had decided to send a letter to the government inquiring about the policy it intended following. He had no heard of a reply being received.

Mayor Newton replied that a reply had been received stating that some definite information would be forthcoming shortly and the city would then be communicated with again. The matter had been left in the hands of the board of works.

J. W. Hamilton, for several years teller in the local branch of the Royal Bank, leaves on Thursday night on his annual vacation and will not return to Prince Rupert. While in the south he will be given a transfer to some branch in the southern interior. Mr. Zimmerman arrived yesterday from Vancouver to take Mr. Hamilton's place.

EXPLANATION WAGE SCALE

Ernest Love, superintendent of utilities, submitted a report to the city council last night justifying the payment of 57 1/2c per hour instead of 50c to laborers in the utilities department.

The resolution referred to was as follows:

"With reference to the complaint at a recent council meeting that laborers in the utilities department are being paid at the rate of 57 1/2c per hour instead of 50c, I attach hereto the motion of Ald. Collart that passed the council on May 14, 1923, setting the scale of wages for labor. You will note it distinctly covers

labor on pole lines at 57 1/2c per hour and rock drilling and blasting at the same rate. Very few holes are dug in this city without some drilling and blasting.

Therefore, I consider this motion my authority for paying labor 57 1/2c per hour."
