# A Solid North

Kergin of Atlin, Pattullo of Prince Rupert, Manson of Omineca, Perry of Prince George and Yorston of Cariboo by co-operation and unity of action were able to accomplish a great deal for Northern and Central British Columbia.

In the next House the North will be stronger by two seats, namely Skeena and Mackenzie, while Lilloet, adjoining Cariboo, seems certain to go over to the Liberal column. These eight seats cover three quarters of the area of British Columbia. By standing together, the representatives of these eight ridings can put up a strong front in the House.

As matters stand, the only way this can be accomplished is by the people electing eight Liberals, which there is every indication they are going to do.

The slogan for the North should be "A Solid North." CAMPAIGN COMMITTEE.

#### South Surprised Any Opposition.

Visitors from the south express themselves as surprised that, considering the work done for the north by Hon. T. D. Pattullo, there should be any opposition to him here. They say they would have expected him to go in by acclamation. This bears out the old saying "A prophet is not without honor save in campaign in Anyox almost every take the project in hand: Presi-

In the south Mr. Pattulio is appreciated and he would have found no difficulty in securing nomination at any one of half a dozen constituencies.

Prince Rupert is going to elect Mr. Pattullo, but it is surprising that there should have been opposition from people who know that it would be fatal to the city to defeat him just now.

#### Knockers Among Opposition Groups.

The knockers are busy. They are saying that everything has been going bad because Pattullo is in the Legislature and Oliver at the head of the Government. They are ready to knock their own city and district if by so doing they can get Pattullo out and put another person in. They are saying the town is full of empty houses, yet they know this is false. They know that it is next to impossible to get a house here without building They know that never before in the history of the north was mining as prosperous as it is today. Why stultify ourselves by knocking our own town. The motto of the supporters of the Oliver Government is "Pattullo and Prosperity." We have no wish to drift into the backwater with Newton such as was done when the hydro-electric scheme was defeated. want another blight to settle on the city.

#### Never Before Was Such Cheering News.

Never in the history of elections was there such a lot cheering news coming in from every quarter as is heard today from the various parts of the province in regard to the prospects of the Oliver Government. The fight the premier put up for freight rates and the campaign which he has outlined for the future is in itself a sufficient recommendation. Outside of that however, is the long record of useful and beneficent legislation special mention. passed by the government. The people are recognizing the good work done and are preparing to vote for Oliver's return.

#### One More Day

Before Election. There will be only one more day before the election. In whose essays were equally good. that time there may be efforts to try to stampede the electors into voting for some other than the government candidate. It has been done in days gone by, but that was before people understood the wiles of the politician. Today it is more difficult to outdo each other in Safety Kergin has given Atlin riding to stampede the electors. By this time nearly everyone will have work. made up his mind, and it is in the air that victory will be with. The prize winning essay by Pattullo, Manson, Perry, Kergin, Wrinch, and Oliver and a sup- Miss Nettie Thomson will be pul port that will make it clear down east that the people are with lished in a future issue. the government in their demands for proper treatment by the railways and the Dominion government.

### BURNS LAKE POUND CAUSES DIVERSION FOR THE CITIZENS

Pair of Mules Give Trouble and Eat Half a Sack of Oats

BURNS LAKE, June 18 .- The incorporation of a village may be a good thing in some ways but, occasionally, it carries grief to the fathers of the council. Among other enactments of the council of Burns Lake was a Pound bylaw necessary in some ways but the enforcing of which i would work a hardship on all the settlers in the immediate vicinity of town who depend on the fact that the adjoining range is free. By this act sundry lacteal producing members of the bovine race may roam the streets at will, gaze into the store windows during certain hours and disport themselves with true metropolitan glee. But woe betide the poor range dog that ventures within a mile of the town limits for the pound keeper has commandeered the services of the lake and the small boys of the own are rounding up every quadruped that can be enticed to the pound corral to be suitably rewarded according to their

But on Friday, day of illomen, they caught not one Tartar but two when the pound keepers; boy scouts, rounded up a pair of mules belonging to Jock Mitchell. a pioneer of Prince Rupert and now a prominent farmer within the long desired link connecting a few miles of Burns Lake, It was some job to corrall the mules who were not used to city George and the world at large. life but it was finally accomplished and the irate Saot was work, the remaining seventeen duly notified. During the night limites being comparatively light. the mules ate half a sack of oats; and the owner refused to pay the COMMUNITY HALL fine or feed bill.
