OF BALL GAME Defeated Sons of Canada in Baseball Fixture Last Night by 4 to 2

THE BAILY FEWS.

1 al 14 1 4 11

The line-up of the tobacconists having been re-arranged in an effective manner, Gil's City League baseball team last night won its first victory of the season when it inflicted an initial defeat on the Sons of Canada by a score of 4 to 2. There was a big improvement in play over recent matches and an exhibition of good tight baseball resulted. There was a fair-sized crowd and

Liberals Going Back Stronger ---Declares Burde

JAGE FINL

The Only Party Prepared to Support Labor Legislation, says Independent

Alberni, May 19. Press Report. Addressing a large audience here, Major R. J. Burde, candidate for

Beer by the Glass

And it's a vote for temperance, too. Beer drinkers Gil's catcher, tore a ligament in are not spirit drinkers; beer drinkers do not get drunk.

It's also a vote to aid British Columbia industry, for all the beer is made in B.C. by our own people. The barley and hops are grown in B.C. All the money from BEER BY THE GLASS remains in the province.

Vote "Yes" on the **Beer** Plebiscite

MODERATION LEAGUE OF BRITISH COLUMBIA. Gordon Ross, Sec'y. re-election as an Independent member in the Provincial House, clearly stated his attitude towards the parties in the fight. He frankly stated tha the was behind the Liberal Party because it was the only party prepared to support Labor legislation, and briefly dismissed the Conservative Party as not offering serious opposition. The third he classed as enemies of Labor and opponents of Labor legislation. "The Liberal Party are going back stronger than ever," he vigorously told his audience.

Bowser says that McRae wants to get into power owing to the readjustment on the timber licences due next year, but it is not that at all. Before the eight-hour law comes into force there will be another session of the House, and McRae and his millionaire party want to be there to defeat this measure.

"Why are all those bloated aristocrats travelling around the country at McRae's expense?

"They used to feed out of Bowser's trough, and they can see no chance of his return to power to enable them to get back into his trough, so they are now feeding out of McRae's trough in the hope that he might get into power. I have two opponents, so far.

"The Conservative Party is not much opposition, as there are only a few die-hards left.

"Now for my attitude to the Liberal Party. As a Labor candidate, I am supporting the Liberal Party because they are the only party who are favorable to, and prepared to support, Labor legislation. I will not vote an Oliver out to vote a Bowser in.

"Many of my old-time friends were very skeptical of my independence and thought that I only used this to get elected, and that then I would flock back to the Conservatives, but nothing doing.

"I respect the honest efforts of the Hon. John Oliver to give us good government.

"The Liberals are going back to power stronger than ever as a result of these efforts.

"The Liberal Government has put on the statute books more progressive, social and labor legislation than any other government.

"God bless the Liberal Party, as they are the only party standing behind the Labor movement.

"The Conservatives only want rubber stamps, so elect all of them that you can.

"With regard to the McRae party, the only fault I have to find with the newspapers on this is that they state that McRae delivered a speech at such and such a place. He only gives a recitation, and the only change
