#### MEN ARE MORE SHORT TEMPERED THAN WOMEN

Is it so, or is it not so? Some men naturally will dispute the statement, but these same men! should recollect the times they have lost their tempers when 'hey lit the fire in the morning and it went out, leaving them to ] do the whole thing over again.

Fortunately this trouble can easily be eliminated. Coal is beng sold today which can be ignited from paper rolled into balls. A good fire is going in a few minutes and breakfast is ready in no time.

This coal is the famous Nanaimo-Wellington, sold only by Albert & McCaffery, Every pound of it double screened-ne rock or shale, no slack and very little ash. It lasts longer, gives greater heat and better service. These are some of the reasons for so many repeat orders. Be one of the many wise people. Do as they do by ordering nothing but Nanaimo-Wellington coal. Prompt and civil service. Remember the phone numbers are 116 and 564.

#### CITY OF PRINCE RUPERT

Take notice that Atlin Avenue between Second Avenue and Seventeenth Street will be closed for one month commencing Monday December 1.

Residents are requested to get in their supply of coal, etc., before that date.

F. W. PEARSON. City Engineer.

#### You Old Dear It's Just Adorable He had just given her a wrist watch in one of the new patterns. The pride in her new possession is unrestrained for he surely showed good taste in the choosing, and we guaranteed the movement to give every satisfaction. The prices this year are lower than ever before because the Swiss watch factories have all started making small watches, and their market in Russia and Germany is not the best so they have to offer us low prices. #### "Child's Eyelids Inflamed. Stuck Together and Bled"

Mr. E. P. Kimball, Entwhistle, Alta., writes:

"Our little girl from birth was troubled with inflamed eyelids and in spite of several remedies, grew worse until at the age of sixteen months her eyes could not be opened after sleep without bleeding, a waxy discharge sticking the lids

together and adhering with great tenacity. The child's grandmothers were consulted by mail, and both responded with a little sample box of Dr. Chase's Ointment. These were used as directed, and lasted until we could obtain a further supply from Edmonton. Improvement was very marked from the first application. The waxy discharge was easier removed and did not reappear. Inflammation subsided and has not returned."
