Two Important Railroaders

NLESS he has personal reasons for wishing to take a rest from active railroading, we hope we have not seen the end of Jack Kennedy's association with the Pacific Great Eastern Railway.

Although Mr. Kennedy has submitted to the new board of directors his resignation as general manager, there is no call upon the board to convert this into an act of finality.

The former CPR superintendent is an exceptionally good railroader who has displayed vision and ability in guiding the PGE to the verge of what may be its great era. He is simply too useful a man to lose. If he seeks relief from the strain of keeping the line clear and the trains running, a place of authority should be found for him in the organization where his advice and experience are always

Should Mr. Kennedy have resolved that all he wants is complete and absolute retirement—and no one could be more justified in so deciding-any fears that the PGE will suffer from inexperienced supervision are allayed by the appointment of Bernard Allen as a director.

Moving in from the position of manager for Canadian National Railways in B.C., Mr. Allen will unquestionably prove a source of tremendous strength to the new board.

Although it seems unlikely at the moment that the PGE will become a part of the CNR system, the association between the two railways is destined to be extremely close, and tight coordination in their operations will have to be effected.

Mr. Allen will be invaluable to the PGE not only in this respect but also in bringing to the railway his extensive experience and his ability as a competent and popular executive.

Support of Volunteers

EMOCRATIC countries do well to encourage I the voluntary societies in the field of health because citizens associated in committees to work for the common good, with no thought but the good of the community, can do work cheaply and effectively.

This is the contention of an editorial in the current issue of Health Magazine, which points out that in countries like Canada the prime mover in calling public attention to the need for vigorously attacking some specific problem is traditionally the voluntary society.

This has been a significant factor in the development of major reforms in such countries—the abolition of slavery, the procuring of the vote for women, the trade union movement.

After a summer recess, Prince Rupert voluntary clubs will go into action again. We cannot assist our community more than giving encouragement and support to such organizations.

On the same day as that cabled report appeared in our papers I received a letten from Happy Holmes, (of White Rock), who is now visiting his old boyhood home in Yorkshire. Happy was one of the founders of the Labour party in his town and writes me a most shrewd size-up of conditions there

He puts his finger on one big.

"It s a serious mattre, the housing question here, there being hundreds of old houses condemned years ago but still occupied. Yet the Government of getting back. is arranging with Local Councils here to set aside land for hundreds of modern cottages air bases is going full steam ahead."

WAS informed during the British election last October that the American Air Force now stationed in Britain is considerably stronger than the Royal Air Force now stationed in the home

the more it seems to me to show up the most significant and dangerous thing about the British-American alliance.

It is about eleven years since Mr. Churchill coined his famous phrase about the two great English speaking powers getting "mixed up together for the com mon good." In spite of all the drawbacks, setbacks, and petty disadvantages I think that this mixing up process has been good thing for the world and for Canada, Britain and U.S.A.

But one would be blind to al reality not to see the dangers in the present lop-sided arrangements. The United States has now secured the right to girdle the globe with her land, sea, and

She not only has more airmen in Britain than the British them_ selves have. But she has repeated that same process in dozens of other parts of the world, on smaller scale.

THERE IS, of course, not a single British Air Force squadron stationed in U.S.A. No other ally take a chance and drink the outof the United States has secured any reciprocal right to station its armed forces on American soil in return for ceding rights to the Americans to locate on its terri-

As I See It Newspaper to Print 'News' Now on Front Page—No Ads

LONDON (AP)-The Manchester Guardian, founded 131 years ago, disclosed today it has decided to start printing news on its front page.

In common with many other British newspapers, the influential Liberal Guardian now carries nothing on page one but advertising matter.

A spokesman said the change-over will be made some time during the autumn. He added that the Guardian hasn't yet decided where it will put the displaced ads.

But, Mr. Mount declared, "this situation has given rise to a "Oh, just the ordinary kind." problem in good relations with

He cited instances where Oregon merchants, unaware of the true value of the Canadian dollar, are either refusing to accept Canadian currency or are offering to trade only at par, or even in one instance demanding that the Canadian customer take as much as a 10% discount.

"Thus in the last instance the Canadian would receive only 90 cents for his dollar which in ruth is worth \$1.041/4."

The Portland tourist leader urged merchants in every line of business-motels, hotels, restaurants, theatres, service stations department and drug stores, as well as every other kind of business with which the Canadian tourist might possibly have dealings-to instruct their clerks cashiers and other personnel to accept Canadian currency and give the visitor full measure for

Pointing out that until recently, when the shoe was on the other foot and American dollars were worth more than Canadian dollars, Mount said American T. Norton Youngs, Chamber tourists travelling in Canada althe meeting will be held at that given the benefit of their Amchasing power,

> "A little common courtesy, o the application of the "golden rule" will go a long way toward improving our own relations, here in Oregan, with the people of Canada who are fast becoming one of Oregon's major sources of tourist trade. Mr. Mount said "We cannot afford to drive this business away by unfair reatment of these Canadian

visitors.' Foreign exchange rates are quoted daily on the business page of both Portland metropolitan OTTAWA (P) - Labor union papers. Mr. Mount suggested membership in Canada stands at that merchants check with their local banks to learn what exchange they are paying, as the rate is subject to fluctuations.

> He urged that all businesses accommodate the Canadian tourist, himself, rather than making the visitor go to the bank for this service.
