A NICE NEST EGG FOR CHRISTMAS

If you went to your banker for an accommodation you would expect to pay for it. This same accommodation obtained in the form of merchandise from any merchant must be paid for. We realize that many people who are buying on credit do so as a matter of convenience. Some do so because there has been no inducement to pay cash, while others through force of circumstances require credit.

Some months ago we inaugurated a system which will interest you if you wish to pay cash. Because of our desire to try this system out on a small scale we did not advertise it. However, as it has proven so satisfactory, both to our customers and ourselves, we want you to know about it. Come in and see us.

OVERWHELMING MAJORITY IN SILENT ELECTION

Prince Rupert Women Register Interesting Vote to Save Money and Lessen Work

It is a sign of the times that women should demand more authority in their homes. Not that they want all their own way but that when comfort and economy are at stake they are usually better judges than their husbands.

They are at home all day and know more about the things that go to make for the comfort of the home than the husbands who come home at night expecting everything to be just so. This is why so many Prince Rupert ladies insist on having Nanaimo Wellington coal. They have had a study of coal and have discovered that Nanaimo-Wellington is far superior to its competitors. Very little lasts a long time. If drafts are shut off at night the fire will be there in the morning. No rock, very little ash and no slack are other points in favor of Nanaimo-Wellington.

This famous coal is sold only by Albert & McCaffery. They have their own team and truck and assure prompt service. Order direct from them and be sure you get the only coal—Nanaimo-Wellington. Their phone numbers are 116 and 564.

WOULD HAVE MANAGER FOR PRINCE RUPERT

John Dybhavn Answers Some of the Objections to System Which he Had Advocated

At the Elks' roll call last night John Dybhavn answered some of the objections that had been taken to the plan of government of the city by a manager. He explained that it was simply a plan for bringing the government of the city to the same state of efficiency that was seen in private concerns. It was designed to take city business beyond the influence of civic politics.

It had been said that the new plan of government was opposed to the old method of trusting the people. He stated emphatically

that the people would be in control just as much as ever. Elections would be held annually, but there would be greater continuity of work and less opportunity for the professional civic politician.

The business of the city was the business of the people and it was for them to have it conducted in the most efficient manner possible. He had absolutely nothing against the present civic officials. It was simply a matter of method and not of personnel.

Mr. Dybhavn cited South Vancouver as an example of a civic government that had practically gone to the wall and yet by the appointment of a commissioner to handle the affairs for a few years, the municipality had recovered.

Steps were being taken to try to secure legislation this year enabling cities to adopt the manager plan of city government.
