Prince Rupert Feed Co

SHOULD HAVE AN ELEVATOR

That is Opinion of Prominent Canadian Who is Visiting This City

PACIFIC COAST HOPPER

That Prince Rupert has just claim to a grain elevator, that the port has every advantage for the establishment of such a facility and that it must come in the course of a very short time is the opinion of John Ferguson, original owner of the townsite of North Bay, Ontario, reeve of that city for five years, mayor for four years, eight years on the council and four years president of the Board of Trade, who is in the city today with Mrs. Ferguson in the course of a tour of the United States and Canada which started last August and which they expect will continue for another year.

Mr. Ferguson is much impressed with this port and marvels that its development is not already far advanced. The Panama Canal, he says, has revolutionized transportation for Western Canada. It will cause the division of Canada from this standpoint into two—east of Moose Jaw and west and the two Pacific Coast hoppers will be Prince Rupert and Vancouver. As for Oriental shipping, Prince Rupert should be the central port Mr. Ferguson believes, on account of the shorter distance across the Pacific Ocean and the splendid grade of the Canadian National Railways.

The development of the Canadian National Railways, with Sir Henry Thornton as its head, is in safe hands, Mr. Ferguson declares. D. B. Hanna, the former president, left it in excellent shape and was succeeded by a man of whom all Canada should be proud.

Peace River Neglect

Mr. Ferguson deeply regrets that the Peace River country should have been neglected as it has from a transportation standpoint. Immediate steps should be taken to open up such a fine agricultural area.

Mr. and Mrs. Ferguson since last fall have motored through the northern states to Vancouver. They arrived here on the Prince George yesterday afternoon. Tonight they leave for Edmonton and Regina enroute to Detroit, Michigan, where they will again resume their motor trip on an automobile which is being especially built for them. They will go to Northern Ontario and later plan going to Florida and other southern states.

Mr. Ferguson is an old friend of Mayor Newton whom he regrets is out of the city while he is here. Mr. Newton's brother, George Newton, publishes a paper in North Bay.

A. E. Ireland, expert eye specialist and graduate of the Optical Institute of Canada, Toronto, recently arrived in the city to join the permanent staff of Max Heilbroner.

IMMIGRATION AND SUCCESS

Must Develop Resources Says Dr. Creelman Addressing Edmonton Board of Trade

NOTHING IS WRONG

Pick and Shovel Men Needed Says President of Ontario Agricultural College

EDMONTON, April 17.—An irresistible optimism pervaded the address of George C. Creelman, president of the Ontario Agricultural College, in addressing the Board of Trade here at their luncheon.

There is nothing wrong with the west, Dr. Creelman forcefully pointed out. All that is needed to put the country on the high-road to prosperity is the right sort of spirit among the citizens, coupled with a real effort to better conditions through extensive immigration.

"We need settlers," the speaker asserted. "We need and should get within the next ten years an increase of at least twenty-five per cent in our population. If we do this there is no reason, as I see it, why prosperity cannot be increased by just that figure."

Attract British Settlers

Dr. Creelman emphasized the desirability of attracting settlers from Great Britain. There were thousands of men in the old land who, if brought into this country and given half a chance, would make good in the fullest sense of the word.

Dr. Creelman quoted various statistics to prove that Canada is in a position to attract all settlers, sound in mind and body, and offer them wonderful opportunities.

In investigating this question, he had found that one in every five men, women and children in Canada owned a bank account. One in every nine own municipal or other debentures, and 500,000 automobiles and trucks were possessed by Canada's nine millions, while Great Britain, with a population of 45,000,000, had only 100,000 motors and motor trucks.

Since 1915, the people of Canada had subscribed in loans to pay off Canada's own debt, some $2,500,000,000.

"Does this look as though the country and its people are in a bad way?" the speaker asked.

Canada, Dr. Creelman declared, has such opportunities that she should have no difficulty in attracting thousands of immigrants from less fortunate countries. In the next twenty-five years, the country should see a vast increase in population.

"Pick and Shovel" Men

"The type of men we need from other lands are 'pick and shovel' men," the speaker maintained. "All too few of our own boys are following this line of work. We need good tradesmen, and we need, too, good farm laborers."

Dr. Creelman outlined to the board a scheme of his origination which was being tried out in Ontario. The plan was to bring out from Great Britain, 10,000 boys just over school age and to establish them in the employ of farmers for five years, at a reasonable salary, so that at the end of that time he would, nine times out of ten, want to remain in Canada and become a good citizen of the country.

One of the things which Dr. Creelman had found perplexed Britishers in general was just why Canada didn't take more extensive steps to develop the natural resources, with which the country is enriched. The Britisher puzzled over the reason why the dominion did not develop its silver and oil resources; why the eastern province purchased thousands of tons of coal from a foreign country when unlimited coal resources were available in Alberta.

Must Develp Resources

Canada, the speaker declared, must preserve its timber and fully develop its other valued resources.

Elimination of petty quarreling and factional differences is one thing to which the country, first of all, must give attention. A united Canada is needed.

"Liver Trouble so Severe I Had to Quit Work"

Mr. Thomas Honey, Brantford, Ont., writes:

"I was a great sufferer from enlargement of the liver for ten months, and finally I had to quit work. I would wake up in the mornings with a bitter taste in my mouth, had frequent headaches, yellow complexion, and pain in my right side, and between the shoulder blades. It was almost unbearable, and terribly weakening. I could not sleep at night and my heart also bothered me. But the whole trouble has now left me, thanks to that wonderful medicine, Dr. Chase's Kidney-Liver Pills."

Dr. Chase's Kidney-Liver Pills
35 cts. a box of 35 pills, Edmanson Bates & Co., Ltd., Toronto

WHY DOCTORS ADVISE TONIC IN SPRING!

This is the season when your system is trying to adjust itself to warmer weather. Your liver becomes sluggish and your bowels clogged up with poisonous, sickening wastes. As a result, many suffer from such symptoms as sour stomach, coated tongue, bad taste, biliousness, irregular movements of the bowels, sick-headaches, pains in the back and sides.

Make this test! Cleanse and tone your liver and bowels with Dr. Thacher's Liver and Blood Syrup. Put your stomach in condition—soothe your tired and over-taxed nerves, brace up your system and send purer and healthier blood coursing through your veins.

Notice the quick difference in way you look, eat, sleep and feel—improvement in less than 14 hours. You, too, will be satisfied, as others have, or no cost.

Dr. Thacher's is sold and recommended by Ormes Ltd., in Prince Rupert and by leading druggists in every city and town.

Ten Years Ago in Prince Rupert

April 17, 1914.

Having obtained the lease of three lots on the waterfront from Mitchell Albert, Andrew McFadyen announces that he is going to erect a brewery at Cow Bay. The plant and equipment of the Columbia Brewery Co., Vancouver, has been purchased and will be moved to Prince Rupert.

The ladies of the Anglican Church gave a very attractive and substantial lunch for businessmen at the K. of P. Hall yesterday afternoon. The room was prettily decorated with daffodils and the affair proved very successful.

John Johnson was killed and his brother, Robert Johnson, received very serious injuries in a runaway accident at Kitsumkalum yesterday.

HERMITS' SOIREE WAS CONSPICUOUS SUCCESS

Social Event Staged by Group of Young Men in Boston Banquet Last Evening Was Appreciated

The Hermit's soiree which was arranged to be held last night in the Boston banquet hall and which was looked forward to with such lively anticipation by many of the young people, proved to be all that was expected of it. It commenced sharp on time, which was in itself a great merit and dancing continued until about half-past two without any intermission except such as was necessary for the changing of partners. There were about fifty couples present. The Hermit Dreamland Orchestra consisting of Art Easson, saxophone player, violinist, vocalist and announcer respectively; Miss St. Cyr, piano; Kenny Rood, saxophone; Jimmie Prevost, bano; A. Mitchell, Howard White, G. Rorie, and W. F. Browne, drummers, played excellent music throughout, the selections all being the very latest and with fox trots predominating.

Shortly after eleven o'clock supper was served by the Boston Grill and it proved quite an event. Paper caps and cupies were provided for the guests and everything possible done to make this feature a success.

Proper Spirit

The room which is an excellent one from small dances, was artistically decorated by the Hermits and the new floor was the subject of much favorable remark. Throughout there was a spirit of camaradie and good fellowship that made the event conspicuous among the social doings of the local young people.

The Hermits who were responsible for the soiree were George Mitchell, Howard Frizzell, Dick Garrett, George Shaw, Ralph Smith, Doug. Stork, Norris Smfih, Doug. Stork, Norris Pringle, Will Mitchell and Art Easson. George Mitchell took tickets at the door. One feature which was adopted was the system of refusing to sell single tickets to either gentlemen or ladies. This meant that practically every person present had a partner.

The Hermits are being urged by their friends to repeat the soiree again in the near future.

BOART ARRIVALS

G.N.R. steamer Prince George, Capt. Harry Nedden, arrived at 4 o'clock yesterday afternoon from Vancouver and way ports with the following passengers:
