Now for fun!

School's out, and now for romping play!

But in the course of play, young hands touch many things — sometimes dirty, grime-laden, and germ-covered. Disease germs lurk in all dirt and are carried from hands to face, to mouth and food.

What mothers must do

You cannot keep children from this ever-present disease-dirt. But you can, and should, do everything possible to prevent its serious effects.

Children need the rich, purifying lather of Lifebuoy with its wonderful health ingredient to godown deep into the pores and combat the germs ever present in dirt.

The health odour of Lifebuoy proves its antiseptic power.

BOY SCOUTS ON INCREASE

Past Year Was Very Successful One For Movement—Membership Has Grown

The past year must be counted a successful one for the Boy Scout movement in Canada, says the Ottawa Citizen. An increase in the membership of all ranks is shown by the reports submitted to the annual meeting of the Dominion Boy Scout Association, while it is clear that scout activities have been extended and intensified. The total membership has grown from 47,892 to 51,204, an increase of 3,342 for the year.

Although the situation revealed in these figures probably compares very favorably with most other countries, they also show that much more could be done in Canada if proper public recognition of the value of the movement were given. There are some 2,000,000 boys and girls in the schools of Canada, of whom 1,800,000 are in state controlled schools. The numbers suggest the great field for scout work in Canada, which should, of all countries, be the home of scouting and outdoor training. Most persons realize the potentialities for good in the scout movement, but if that realization were translated into a little more active sympathy and co-operation, the boy scout membership of Canada could be easily doubled.

Re-election Welcome

The re-election of Dr. James W. Robertson as chief commissioner of the organization will be welcomed. Dr. Robertson is one who has demonstrated his fitness for that high post in many ways, but in none more than his deep understanding of the meaning of the scout law as a code for building manly citizenship. His presence at the head of the movement in Canada has meant much in its successful development.

RESTORE STRENGTH OF ST. PAUL'S CATHEDRAL

Liquid Cement Under High Pressure Being Pumped Into Crumbling Core of Dome Pier

A further stage has now been reached in the experiments being made to restore the strength of some of the eight piers supporting the massive dome of St. Paul's Cathedral, and engineers are pumping liquid cement under high pressure into the crumbling core of one of them, says the London Times. The best method of strengthening these piers, which are faced with stone but filled with rubble, is being carefully investigated, and if the experiment now being tried proves successful there is every ground for hoping that one of the many problems involved in the maintenance of the Cathedral fabric will have been overcome. Owing to the noise of the machinery the work can be done only when the Cathedral is closed, and some little time must elapse before a final judgment can be made on the efficacy of the method. If it is successful, the mixture of rubble and dust within the piers will be made into a solid mass by the cement, and the piers will thereby, it is hoped, be restored to their former strength. Work is at present confined to one pier on the left-hand side of the Cathedral, and when the result has been gauged a further report from the committee may be expected. This work, important as it is, only affects the internal strength of the fabric and leaves untouched the question of the general safety of the Cathedral which would be involved in the construction of the proposed St. Paul's Bridge.

Optician and Optometrist

After one month of careful conscientious eye testing, our patrons are advising their friends to come to us for glasses.

This is conclusive evidence that our glasses are giving entire satisfaction.

Mr. Ireland has made the eye a long and careful study, and has the knowledge, skill and experience to fit any eye that glasses will help, and in case you do not need glasses, can give you valuable advice.

We are getting the optical business by deserving it —by giving superior optical service. "A stitch in time saves nine" has no more fitting application than in the case of the eye.

REMEMBER, YOU RUN NO RISK HERE.

GERMAN KILLER KILLED HIMSELF

Breslau Executioner's Pension Was Too Small to Support Him

BRESLAU, Germany, May 14.—Executioner Schwiess who had cut off the heads of 123 criminals, killed himself here with a revolver, making the second public executioner to commit suicide in Breslau within three months. Schwiess was 74 years old and had retired on a small pension last year.

His pension was too small to support him and a few days ago he told friends that he would probably exhibit the axe with which he had ended 123 lives and deliver a lecture on his experiences to augment his income.

Executioner Spathe, who shot himself here three months ago, was remorseful and died surrounded by 48 candles he had lighted for prisoners he had beheaded.

HOW FASCISTS RAN RECENT ELECTION

Signor Mussolini has said that the new Italy at which he aims must be not only strong and industrious but "disciplined." An Englishman in Italy, writing in the Manchester Guardian, tells how the streets were full of black-shirts, by order, during the whole period of the elections. Even the members of the Constitutional and Moderate parties were not allowed to canvass or hold public meetings. No opposition posters of any sort were allowed. Every bare space on palace, wall, and church was covered with Fascist posters. Fascists were in charge of the polling booths. In the circumstances the surprise was not that the Fascists won, but that the opposition polled so well.

ROSS BROTHERS BRANCH OUT

Owners of 67 Taxi Service Open Cigar Store and Poolroom at New Headquarters

Justified by their success in the past years and by the confidence of the public, Ross Brothers are showing their faith in the development and progress of the city as well as in the growth of their own business by opening up their own headquarters. They have taken over the old Pastime Cigar Store, just across Third Avenue from the Empress Hotel and will operate the cigar store and poolroom in addition to their taxi business.

They are grateful for the increasing business given them by the public and invite their friends to visit their new headquarters, or when requiring reliable taxi service, to phone 67, at your service, day and night. 114 Advt.

ALBERTANS ALLOWED TO HAVE LIQUOR AT BANQUETS AND PICNICS

EDMONTON, May 14. — One notable feature in the new liquor regulations which came as a surprise to many is that all kinds of liquors may be provided at banquets on the securing of a permit from the vendor in the district where the banquet is held. The permits for such banquets are $3 where hard liquors are desired and $1 for beer only. Hard liquors may be had at picnics, on securing of a permit at $2 or if beer is only required at $1. These permits will likely be made subject to the endorsation of the chief of police of the city or town where the function is to take place.
