PAGE THREE.

Here and There Quebec city is again becoming the Mecca of winter-loving tourists. Arrangements for the forthcoming carnival are nearing completion and sports of all kinds, including toboggan sliding on the four-track chute on Dufferin Terrace, are in full swing.

The mild weather prevailing in Quebec until recently greatly hindered lumbering operations in the province. This situation, according to Mr. Piche, Chief Forester, has been adjusted, however, by late falls of snow, and the total cut has been brought up to normal.

There are 300 ports and harbors jority are, of course, small affairs, from the executive. the big ports not exceeding six. However, one of Canada's ports, Montreal, ranks sixth among the world's ports and third on the basis of export business done during the seven months in which it is open.

Newsprint production in Canada for the eleven months of 1923 ending in November was 1,166,225 tons, as compared with 993,988 tons for the same period in 1922, the increase being equal to 17 per cent. The estimated production for the year is 1,270,000 tons, or 189,000 tons over that for 1922. The value of Canada's 1923 grain crop is estimated by the Dominion Bureau of Statistics at \$892,572,300. Of this total approximately \$450,000 is credited to the three prairie provinces. It is interesting to note that while the figures for Manitoba and Saskatchewan are below those of the year 1922, those of Alberta are above by over \$45,000,000. Grain marketed along the Canadian Pacific Railway in 1923 totalled 187,642,224 bushels, an increase of 33,324.619 bushels over any similar period in the railway's history: The increase in bushels shipped was 13,-086,730, or 9.2 per cent over 1922. and 83.1 per cent of the total amount marketed had been shipped by December 3rd. Government statistics estimate the apple crop of Canada for 1923 at 10,794,500 boxes, which, at an estimated average of \$2 a box, makes the value a little over \$21,000,000. By provinces the estimated production was as follows: Nova Scotia, 5,250,000 boxes; British Columbia, 3,124,000; Ontario, 2,275,000; Que-

fore either the locomotive or the telegraph had been invented, nine merchants of Montreal signed articles for the formation of the "Montreal Bank," now the Bank of Montreal. That was on June 23, 1817-more than 106 years ago.

Since that time Montreal has grown from a town of less than 20,000 to a city of more than 800,000 population.

The Bank, in continuous and successful operation from those early days down to the present time, has steadily pioneered its way across Canada. Today, through its Head Office and more than 550 Branches, it offers complete banking service-local, national, and international-in every section of the Dominion.
