Ir. Justice Kelly Decides Against Occupants of Hall Because of Doctrines Held

FORT WILLIAM, April 7 .- In handing down judgment in a case in which an effort was made to oust the Red element from control of a Ukrainian society at Fort William, Mr. Justice Kelly disclosed a serious condition, so serious that a criminal action may follow the civil case.

According to the history of the case as outlined by the judge the Ukrainians formed a culture society for the purpose of selfimprovement. They built a hall and paid for it, and then the Red | element entered in and captured the society and the hall and used it for propaganda purposes. In the words of the judge

"-these interlopers departed from the original purposes and aims of the society as set out in the constitution and acted upon by its earlier members. The first outward manifestation of their wear her shoe and again attend real intent was their objection to school. This experience taught the use by the society of the Canadian flag and Canadian patriotic songs and their insistence that only the red flag of revolution be used. Then came the introduction into the society's library of books of communistic! tendency and the expulsion from the society of a member on the sole ground that he was a church member; and above all was their sympathy with the principles inculcated by those who proclaimed! the doctrines of revolution."

In summing up the evidence, Mr. Justice Kelly quotes one E. Hucaluk, connected with the Winnippg organization, as having stated at a mass meeting in the hall that:
