INCREASED OUTPUT OF CANADIAN FORDS

Forty-Three per cent Were Shipped to British Overseas Dominions

FORD, Ont., April 25.—An indication of the healthy growth of Canadian Industry during the first three months of 1924 is contained in the fact that 43 per cent of the entire production of the plant of the Ford Motor Co. has been shipped to British Overseas Dominions. When coupled with figures concerning shipments of cars throughout the Dominion of Canada, this makes a truly remarkable showing.

There were produced 9149 cars and trucks in the month of March 1924, and for the first three-month period just ended, a total of 24,049 cars of all models. This compared with a similar period in 1923 shows an increase of 16 per cent in the total business done to date this year. Another interesting feature is the tremendous growth in the closed car business. This branch of the Ford Company's activity approximating 50 per cent of its Canadian sales.

In addition to the huge plant at Ford, and the three assembly plants located at Montreal, Toronto and Winnipeg, there has recently been opened an assembly branch at Port Elizabeth, South Africa, where about 300 cars per month will be turned out.

OPPOSED TO FLEXIBLE TARIFF PROVISIONS

Effort to Artificially Raise Cost of Agricultural Products Violative of Law of Economics

WASHINGTON, April 25.—(By Canadian Press).—Far-reaching possibilities with respect to the future tariff policy of the United States rest in the McNary-Haugen bill for a government commission to promote the exportation of surplus agricultural products.

A feature of the bill is a provision under which the president would be enabled to put tariff rates on wheat and other agricultural products practically at the prohibitive point.

This tariff provision in the bill is resulting in protest from eastern high tariff advocates. Chairman Thomas O. Marvin of the tariff commission recently told the House Ways and Means Committee that he looked on the tariff feature of the bill as unconstitutional and that he regarded the scheme to raise agricultural prices as violative of the laws of economics.

RUSHING GRAIN OUT FROM HEAD OF LAKES

FORT WILLIAM, April 25.—With navigation once more open after the long lieup grain vessels are being loaded at rush speed and are following each other or sailing in fleets to the various ports where ocean vessels load. In one day this week 20 boats took away 3,396,000 bushels of wheat. While most of the boats go to Montreal a good many discharge their cargoes on the American side.

Sport Chat

The various organizations which will field teams in the football, baseball and lacrosse leagues this year have got the task of assembling players pretty well lined up. Especially is this the case as far as the prospective soccer aggregations are concerned. The Sons of Canada, Caillies and Sons of England have their ranks practically filled and the Great War Veterans, having organized Wednesday night, are now on the job. The Baseball Association plans a more even distribution of players this season and to that end a census of baseball talent is being taken. Next week the list so obtained will be checked over by the Association and a distribution of players will likely follow.

Georges Carpentier, the French boxer, must look pretty soft to the boys, otherwise there would not be such a scramble on the part of Tommy Gibbons and Gene Tunney to get first chance at him says an Eastern sports writer. Evidently they figure Carpentier won't be able to be around for the second trip. The fact is the handsome athlete, who less than three years ago, was up there battling Jack Dempsey, is now considered easy pickings and unlikely to prove a drawing card after one more appearance in New York. Eddie Kane, manager for Gibbons and Jack Curley, friend of Carpentier, outmanoeuvered Billy Gibson, manager of Tunney, when they crossed the Atlantic and had Carpentier and his manager, Descamps, sign for a bout with Gibbons at Michigan City on May 31. According to Gibson, the Frenchman earlier agreed to battle Gibbons on July 4 next. Gibson asserts he will not be bought off and says he will insist that Carpentier take on Tunney before meeting Tommy Gibbons.

PARISH COUNCIL IS OPPOSED TO GOLF ON HIGHWAY AT OXFORD

LONDON, April 25.—Is a golf ball a missile? This is a question that may yet reach the dignity of an appeal to the law lords from a decision of the ministry of health in connection with the playing of golf by Oxford university students.

The students at Oxford are accustomed to playing golf at Cowley, but the Cowley parish council objects to the golf balls being driven across a public footpath which is unavoidable if the golfers are to reach a certain green. In connection with the matter the parish council has appealed to the ministry of health, that all-embracing department of the government which gives its benediction to or proclaims its veto upon the activities of the local governing body, and in consequence the department is up against a fine problem. The ministry has replied that no statutory provision can be found prohibiting the propulsion of golf balls across a public footpath.

The parish council, however, has dug a bit deeper into the law on the question of golf balls and footpaths than has the ministry of health and it has discovered that the Firearms act makes it illegal to drive or propel "any missile," across a highway. Consequently the legal definition of what constitutes a missile may have to be settled by the courts and may find its way to the law lords as intimated.

There is a strong suspicion in connection with the dispute that somebody high in authority in the ministry of health plays golf.
