"Tired and Worried Nervous and Despondent"

Mrs. M. Chevalier Belle River, Ont., writes:
"For eight years I suffered from despondency and nervousness. Sometimes I could not sleep at night for worrying and the next day I would be so tired that my work was a burden to me. I began using Dr. Chase's Nerve Food and can say I am now entirely relieved of the nervousness from which I used to suffer, and things do not worry me as they used to."
"Dr. Chase's Ointment also relieved me of eczema on my arms, which had bothered me for three years. My house is never without Dr. Chase's Medicines."

No Angles or Corners in a Brunswick Horn

EVERY phonograph has a "horn" of some kind—the technical name for which is "Tone Amplifier". But the Brunswick alone has a horn which is entirely free from corners or angles and is built ENTIRELY OF WOOD—like a fine violin. No obstruction whatever is offered to sound waves, which always travel in curved lines. The entire absence of metal gives a mellow resonance completely free from nasal or metallic harshness.
