BRITISH AVIATORS UNDER WAY ONCE MORE

BEING PLANNED TO HAVE U.S. FLIGHT COMMANDER LEAD SQUADRON HOME

Stuart M'Laren in Air Again After Delay and Yanks to Fly Tomorrow

BOMBAY, May 13.—Having received a new motor from Bagdad and installed it in his machine, Stuart MacLaren, the British round-the-world aviator, arrived safely at Nasirabad from Paris today, resuming his flight after a delay of over two weeks.

GORDOVA, May 13.—The American army round-the-world flying cruises Boston, Chicago and New Orleans, in command of Lieut. Lowell Smith, Lieut. Leigh Wade and Lieut. Erik Nelson with the first-mentioned as flight commander, intend to hop off Wednesday from Chicago Harbor, Attu Island, for Paramushiri Island, Kurile Archipelago, Japan.

This will be the longest and most strenuous flight of the entire cruise around the globe and will test the endurance and skill of the aviators to the utmost. For hours they will be out of sight of land and will be guided entirely by compass. It is one of the few hops of the flight in the course of which land will not be nearby and, if it is executed successfully, the chances of the Americans in circumnavigating the globe will be greatly increased. The flight from Paramushiri Island down the Kurile Archipelago to the main islands of Japan, it is anticipated, should offer no difficulty. The next hops on which there may be trouble will be in the tropics of Indo-China and India and on the crossing of the North Atlantic ocean by way of Iceland and Greenland.

Leave North America

The hop tomorrow will mark the reaching of a new continent by the United States flyers. Attu Island is a part of North America and the Kuriles are in Asia. The international date line will also be crossed in this flight and it will be Wednesday when the flyers leave but Thursday when they arrive.

Since arriving at Attu Island, the flyers have been busy preparing their machines for the next strenuous flight which will very likely take some twelve or more hours. Through radio as good communications as possible have been established and the route will be covered as well as possible by ships to keep in touch with the planes and render any assistance that may be necessary. The weather has become more settled and seems auspicious for the successful carrying out of the hop.

PARIS, May 13.—Lieut. Doisy, attempting a flight from France to Japan, reports his safe arrival at Saigon, Cochinchina, from Bangkok, Siam, on Sunday afternoon.

Order-in-Council Passed at Ottawa Respecting Disposal of Halibut Culled by Buyers

"All halibut and other deep-sea fish that are brought to the port of Prince Rupert for sale there and that are rejected by the buyers as being unsuitable as to size or quality and that are known locally as 'culs' shall, if they are subsequently sold for any purpose, be sold only with the knowledge and consent of the owner."

Such is the ruling of an order-in-council that has just been passed at Ottawa, according to announcement made by Fred Stork, M.P. for Skeena.

Fred Dorey, Sam Fry, William Murphy of Hyder Burned to Death in Midnight Blaze While Asleep

STEWART, May 13.—Fred Dorey, Sam Fry and William Murphy, all business men of Hyder, were burned to death in the Thumb Creek district twelve miles out of here on Wednesday night.

The fire evidently started when the men were asleep and was caused, it is assumed, by an overheated stove. The remains of the victims were not found until Sunday morning when the prolonged absence of the men caused a search to be instituted. A coroner's inquest was held and the verdict was that the deaths were accidental.

Fred Dorey moved to Hyder only a short time ago from Stewart. He was engaged in the transfer business. During the war he was a lieutenant in the air service.

Sam Fry was a partner of Dorey's in the transfer business and was well known to all in Hyder.

William Murphy was well known as a prospector. Several years ago he sold some claims in the Hyder regions to John Ronan, Former Governor Thomas Riggs, Jr., and associates.

The other three planes will proceed around the world with Lieut. Lowell H. Smith acting as commander. It is the intention to send Martin and Harvey across the Atlantic in time to meet the globe circlers and lead them home from Europe, thus giving the commander the post of honor which he lost through hard luck.
