

### TO PROCEED WITH WIRING OF EXHIBITION HALL

City Council Assents to Expenditure of \$350 from Utilities Department for the Purpose

Ald. Macdonald explained to city council last night that expenditure of \$350 for wiring would be involved in connection with the repairing of wiring in the exhibition hall. He had understood that there would be no such expenditure. Subsequently, he learned that there would be, and he had ordered the expenditure stopped until it was approved by the council. The committee still recommends that it be done. If it was not done, the superintendent would give his permission to the being held. Collart inquired if the money was to come out of the general fund. Ald. Macdonald said that it would be financed by the utilities department. It was then decided, on motion of Macdonald and Ald. Smith, to proceed with the work.

### DOG DOGS ARE SUBJECT COMPLAINT

Collart Asks Mayor to Take Matter with Police—Attacks Made on Children

Vicious dogs in the city were mentioned by Ald. Collart at last night's council meeting. He spoke of attacks that had been made by animals on children and he could furnish the police with further information. There is a special danger in hot weather and he suggested that the matter be taken up by the police with the police. Vicious dogs should be shot or muzzled. A case referred to by a bylaw authority was given the go-ahead to shoot vicious dogs. It was time to do something was done. Mayor Newton said he would take the matter with the police.

### GERMAN BIG GAME HUNTER PLEASSED WITH JASPER PARK

R. F. McNaughton, local district passenger agent of the Canadian National Railways, is in receipt of an interesting letter from Hans Otto, son of a German manufacturer, who, on Mr. McNaughton's recommendation, went big game hunting in the Mount Robson district under the care of Hargreaves' Bros. guides.

The letter says "In seven days I saw six bear and shot two. One is seven feet long. I also saw many mountain goats. I am only sorry that I cannot stay here until September. I would no doubt have a grand time with the goats, sheep, grizzly bears, caribou, elk, etc." Before proceeding to hunt at Mount Robson Mr. Otto outfitted in Prince Rupert. He has since left Mount Robson station on his return to Germany.

### One Flies to the North

"Contact!" "Contact!" The last audible words between pilot and mechanic are spoken, and with stentorian roar of engine and propeller the giant, human and baggage freighted plane, glides swiftly over the surface of the Quince. One feels the churning waters tumbling at the bottom of the boat until momentum has increased to such extent that a touch of the "stick" causes the Vickers Viking to slowly rise.

Two turns in as many minutes and the passenger, having adjusted his goggles and seated himself more comfortably, peers, at first cautiously, over the side of the pit, and far below him lies the little town of Angliers, the head of the Canadian Pacific steel which twists and turns in and out of the forest to the south like a living thing. The earth is as a map below, lakes and rivers shining in the distance and beneath, and ragged patches of bush and arable land smudged here and there like a child's attempt to depict relief. Turning east the plane heads down Lake Quince, following the water course to Lake Expanse, — one sees from the air how appropriate is its name, — thence north for some fifteen miles up the Ottawa River and further north over one of its tributaries to Lake Fortune and Roayn, upon nearing which the plane leaves the glorious rolling clouds and gradually sinks until once more the water tumps the bottom of the hull, checking it with sudden jerks which tend to slow the boat until it stops within a few feet of tie-up. One wonders how the pilot could, at such a speed, have judged his distance so well. But then he does the same thing more than once each day bringing to the new Gold Fields of Quebec, in fifty minutes, passengers and supplies which, before the air service was started took two days at the least to arrive.

Commencing May 18th the Air Service to the Gold Fields will be regular on Monday, Wednesday and Friday, large flying boats capable of carrying five people being scheduled to meet all Canadian Pacific trains at Angliers. This service, which will eliminate the hardships of the past and enable prospectors and tourists to travel to the Roayn Mining District in less than an hour will include regular stops where they are required and accommodation is available.

### ALD. COLLART RAPS MAYOR RE ACCOUNTS

Chairman of Finance Committee Felt that his Explanation of \$100,000 Payment Might Have Been Taken

Accounts totalling \$118,971.10 up to May 3, which were laid over at last week's council meeting so that the mayor might investigate a payment of some \$100,000 to the Royal Bank, were passed at last night's meeting. The mayor stated that the account in question had been explained to his satisfaction by the city treasurer.

Ald. Collart felt that hardship had been caused through the accounts being held up for a week. He suggested that the mayor in future scrutinize the accounts in the finance committee.

Mayor Newton said he was not aware that any payments had been held up. He felt that he was justified in desiring to inquire into an account amounting to such a large sum as \$100,000.

Ald. Collart then expressed the opinion that the mayor might have accepted the explanation offered by himself (Ald. Collart) as chairman of the finance committee at last week's meeting. The explanation given by the treasurer to the mayor had been to the same effect as that he (Ald. Collart) had given. There was little danger of anybody running away with \$100,000. The smaller accounts might be more worthy of such scrutiny. Accounts up to May 10 totalling \$3,422.59 were also passed.

### Sport Chat

The Great War Veterans and Callies meet in tonight's football fixture to decide which will be the first team to register on the winning side of the standing sheet. Though the Veterans' new men did not show up to very good advantage against the Sons of Canada in their opening game last week, they have every confidence that they will be able to make a better showing against the Scots who were themselves beaten on their first appearance by the Sons of England team. Fans will follow the outcome of the game with interest for it will give them a further opportunity to dope out the respective strengths of the teams. Good weather promises and a large crowd is expected. G. S. Russell will referee.

Following will be the line-ups for the game this evening:

G.W.V.A.—D. Knox, F. Hunter, Carney, S. Shackford, W. Murray.

### COULDN'T SLEEP HEART WAS BAD NERVES A WRECK

Mr. H. A. Reid, Upper Musquodohut, N.S., writes: "I am very thankful for the benefit I have received by using Milburn's Heart and Nerve Pills."

When I came home from overseas, in 1920, my heart was very badly affected by concussion, and my nerves were a dreadful wreck. I was very short winded, and could not possibly sleep at night; in fact, I was in such a condition I felt as if I did not wish anyone to speak to me. I thought I would try Milburn's Heart and Nerve Pills, and before I had taken two boxes I could enjoy a good night's rest as well as anyone.

There are lots of returned men who are suffering the same as I did, and I feel sure that if they would only try Milburn's Heart and Nerve Pills they will receive the same relief that I have.

# INTO THE ATTIC

Few youngsters today ever saw a horse-hair sofa. They wouldn't know what to do with a fire taper, carpet stretcher, or coal oil lamp. They couldn't braid rags into a rug, or wind yarn without tangling. But they know the how and why of typewriters, phonographs, telephones, automobiles; what happens when a push of the button gives light, or a kodak's flash fixes their image on paper.

Their education is as modern as the advertisements they see. They have no more use for the lamp and chimney of yesterday than you for the wick and tallow of the day before.

Advertisements induce such progress. They urge wide use that means improvement. They help you lift the out-of-date into the attic—rid you of the water buckets and soap kettles of slavery. They bring late improvements within your reach.

Read the advertisements regularly. Keep alert to the new.

Without advertising, you would never know a product's worth until you had bought it.

## If you had the Strength of a Blacksmith

Washday would still hold a grim task. For scrubbing and rubbing and wringing is a job for machinery and not for human hands. It is a job for us and not for you.

Why not rid yourself of it by using our Wet Wash service? The burden of washing will be eliminated—only the lighter work of ironing will remain. And the charge is only a very few cents a pound.

Just phone—we'll call for your bundle.
