First Get Canadian Consent

mplications Likely in Alaska Project

Furthermore, Alcoa has not  
as yet placed any application  
before the Canadian govern-  
ment requesting permission to  
make the Yukon River diver-  
sion.

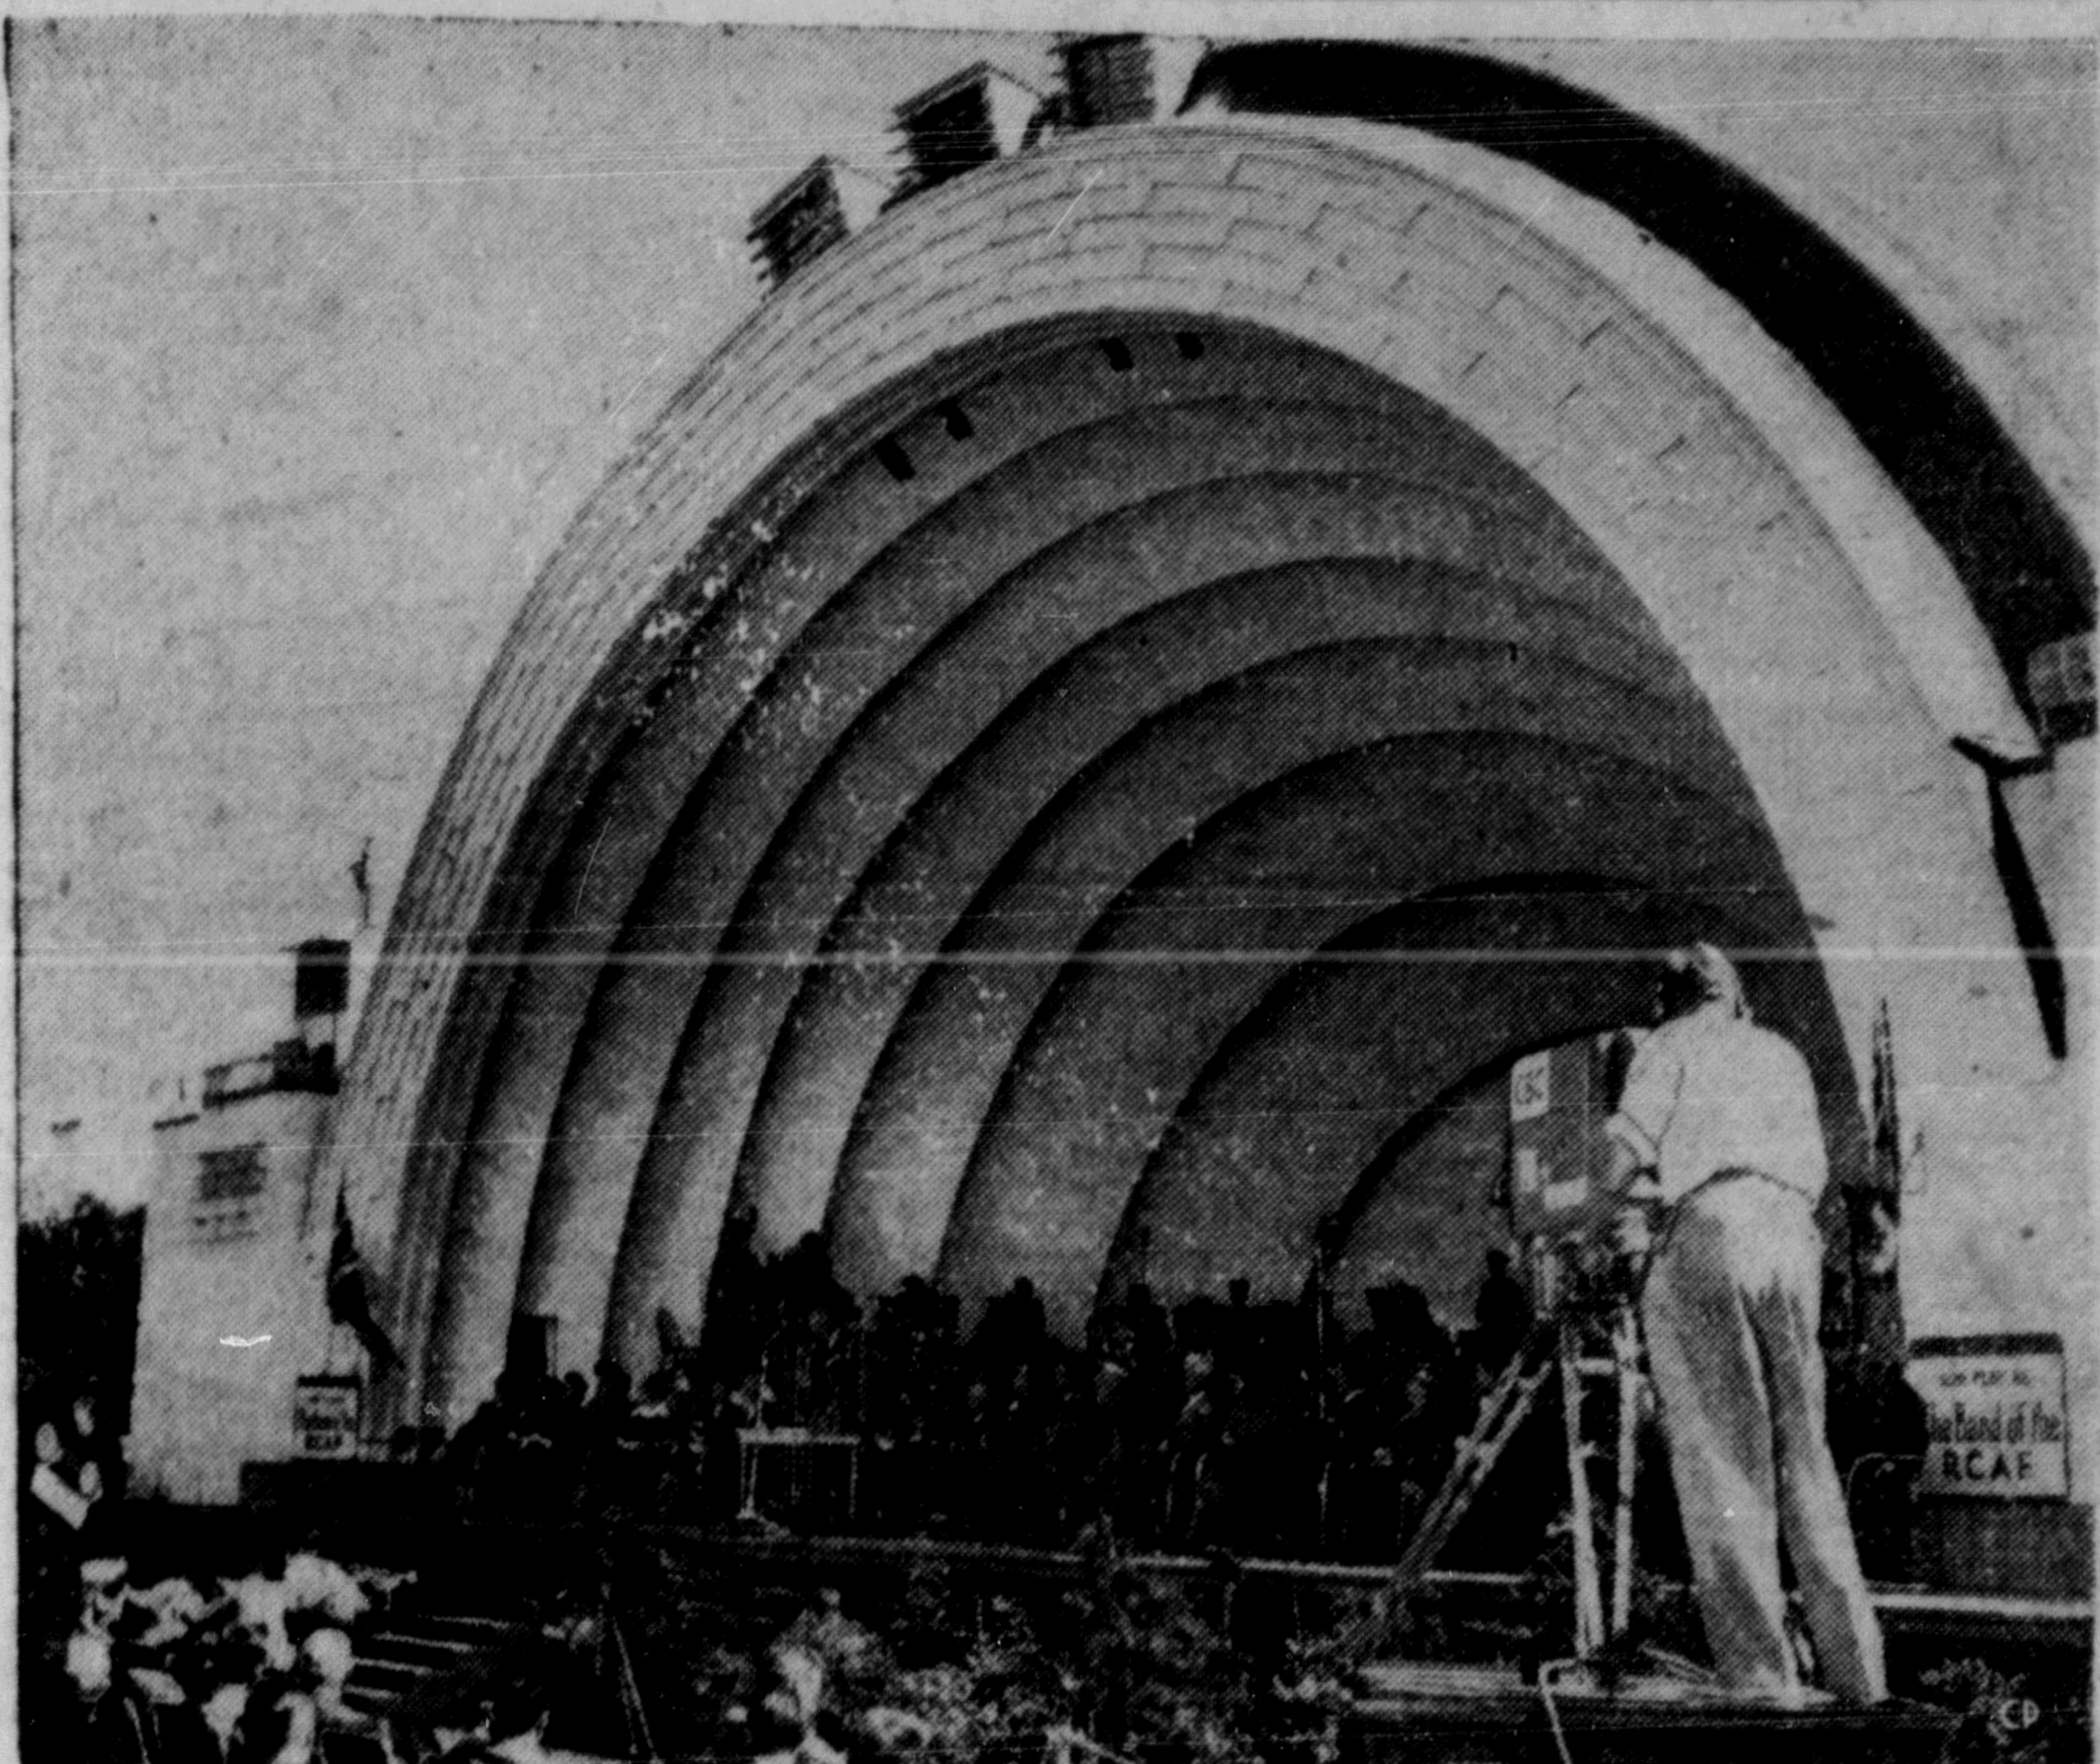

Further aspect of the Alcoa  
announcement is that the Al-  
uminum Company of Canada is  
constructing a \$550,000,000 al-  
uminum plant at Kitimat and  
is attempting to expand its  
market in the U.S.

However, officials believe this  
should provide no hindrance to  
the development of the new  
Alaska company since the world  
demand for aluminum would re-  
main strong for many years to  
come.

In the initial announcement,  
Leon E. Hickman, vice-president  
and general counsel for Alcoa,  
said the plant initially will be  
capable of producing 200,000  
tons of aluminum annually.

Hickman said the plant will  
be built in the Taiya Valley dis-  
trict, near Skagway. It will be  
financed entirely with private  
capital. He estimated the Taiya  
development will require about  
four years to complete and will  
eventually offer employment for  
approximately 4000 workers.

Said Hickman:

**FIRST TELECAST**—Toronto's first television station, CBLT on Channel 9, telecasts highlights of the Canadian National Exhibition's opening ceremonies for its first public showings. A special CBC mobile TV unit, using three cameras, was used to broadcast ceremonies by Governor-General Viscount Massey. The station will be on the air during the Exhibition and will open officially Sept. 8, two days after the CBC's Montreal station, CBFT on Channel 2. The CBC reported good reception of the first telecast from London, Ont., Kitchener, Cobourg, Hamilton and from Buffalo and Tonawanda in New York state. (CP PHOTO)

## Bus Fares to Increase Sept. 8—If Granted

The Public Utilities Commission has set September 8 as the date on which bus fares will be increased in Prince Rupert if the rate boost application is granted.

Mel Forbes, manager of Arrow Bus Lines, said today the change in date from September 1 was approved by the PUC to give all parties concerned further time to study the application.

## Ike Warns of 'Great Peril' From Soviets

NEW YORK (U)—Dwight D. Eisenhower said today that because of the Soviet master-plan of conquest "this nation stands in greater peril than at any time in our history."

He called for a clear, strong warning to the Russians from the United States government. "We must tell the Soviets with cold finality that never shall we rest content until the tidal mud of aggressive Communism has receded within its own borders," he said.

Eisenhower's remarks were contained in a speech prepared for delivery to the American Legion national convention here.

## City Must Provide Own Crash Boat

The city of Prince Rupert is responsible for providing a crash boat at its Seal Cove seaplane base.

H. H. Wilson of the Department of Transport in Vancouver, in a letter to city council said the department is not responsible for operation of the base here and "the matter of providing a crash boat rests with the operators, in this case the city of Prince Rupert."

Council had written a letter some time ago asking that a crash boat be maintained at the base in case of emergency.

The city leases the Seal Cove base from the Department of Transport.

The request followed the crash at Sandspit of a DC4 airliner carrying a full load of returning war veterans from Korea which overshot the runway and all but seven were killed.

It was disclosed at that time, that lives of some of the men might have been saved had there been a crash boat at Sandspit airport which is operated by the Department of Transport.

## Unique Farm

WONNOC, B.C. (CP)—A. D. Hitch and his son are raising chukar partridges, natives of Kashmir, and selling about 4000 a year to the British Columbia Game board for release in the forests. The chukar farm, 15 miles from Vancouver, is believed unique in Canada.

## Nursing Staff

GRANDE PRAIRIE, Alta. (CP)—Efforts are being made by the hospital board to bring at least two British nurses to Grande Prairie to ease critical staff problems. A staff shortage threatens to close the main floor of the 80-bed hospital.

# Fishermen Strike Biggest Run of Pinks In 20 Years

## Crew of Burning Schooner Safe—Rows Ashore in Night

St. John's, Nfld.—The crew of the fire-damaged schooner James Jones rowed quietly ashore during the night and allayed fears that all might have perished in the explosion. There were no immediate details, but one source said the crew abandoned the ship after she caught fire. They rowed more than 50 miles to shore and apparently were all fit when they landed.

## 350,000 Caught in One Day's Fishing

More than 350,000 pink salmon have been caught in Masset Inlet in one day by 85 purse seiners in the area and the heavy run of fish indicates it is the best since 1930.

## Jet Bomber Makes Fast Crossing

ALDERGROVE AIRFIELD, Northern Ireland (U)—Britain's Canberra jet bomber completed the first flight across the Atlantic and back inside one day and crossed the finish line here today at 4:39 p.m. BST (11:39 a.m. DT).

The jet bomber lashed across the ocean and back in slightly more than 10 hours.

The double crossing in a single day is the first in history.

The black Canberra also smashed all records for the west-to-east passage as it streaked home from Gander, Nfld., its western terminus of flight.

The homeward flight from Gander took only three hours, 24 minutes. The outward crossing, slowed by headwinds, took four hours 41 minutes. T three-man crew spent about two hours at Gander refuelling.

The whole trip of 4,145 miles took 10 hours, five minutes, including a two-hour stopover at Gander.

# BULLETINS

## McElroy Ousted In Tourney

VANCOUVER—Bob Roos Jr., San Francisco, today spilled defending champion Walt McElroy of Vancouver out of Canadian Amateur Golf championship with 3 and 2 victory.

## Feared Dead In Crash

KARACHI—All 18 passengers aboard a Royal Pakistan Air Force plane—including high officials of the Pakistan Army and Police are believed killed when it crashed in Punjab today.

## Airmen Shot Down By Fighter

ELGIN AIR FORCE BASE—The navy reported today a minesweeper picked up two crew members of a 8-17 bomber shot down by a jet fighter in the Gulf of Mexico yesterday.

## Jet Pilot Killed

CHATHAM, N.B.—A pilot was killed trying to crash-land his jet fighter on a highway near here and was identified today as Pilot George Collingwood, 20, Vancouver.

## Problem Looms in Big Four Talks on German Treaty

WASHINGTON.—Russia and the western powers appeared as badly split as ever today on how to go about making a German peace treaty.

## Premier to Fly Over Alcan Site

Prime Minister St. Laurent, who arrives here September 7, will fly over the vast Aluminum Company of Canada project enroute to this city.

Present plans call for his arrival here about 2 p.m. He will be accompanied by his private secretary, Ross Martin; Fisheries Minister Robert Mayhew, J. Pickersgill, secretary to the Privy Council, and Mr. Bill Munro.

Mr. St. Laurent will be officially welcomed by Mayor Harold Whalen in Council Chambers and is expected to speak here in the evening prior to leaving by private train for Smithers.

Workmen yesterday began re-decorating the Chambers in preparation for the visit and a picture of Queen Elizabeth II, presented to the city by the Imperial Order Daughters of the Empire, will be hung in its first place of importance for the Prime Minister's visit.

The Prime Minister's scheduled Labor-Day visits to Cranbrook and Kimberley have been cancelled because of the polio outbreak in British Columbia's East Kootenay region.

James A. Byrne, East Kootenay member of parliament, said visits were considered inadvisable because of crowds which would assemble.

All gatherings are being discouraged throughout the district, where 11 persons have died of polio so far this year.

The Prime Minister, Justice Minister Carson and Fisheries Minister Mayhew were scheduled to arrive at Cranbrook airport about noon Monday.

## -WEATHER-

Synopsis  
Skies along the southern coast and in the interior are clearing slowly this morning as a ridge of high pressure continues to develop over southern sections of the province. By late afternoon skies should be sunny over most of the south coast and in the interior clear by evening.

Another area of low pressure located in the northern Gulf of Alaska is moving slowly towards the north coast and will keep this area of B.C. cloudy today and Wednesday. Light rain is expected along the northern coast Wednesday.
