O CANADA!

O Canada, our heritage, our love,
Thy worth we praise all other lands above.
From sea to sea, throughout thy length,
From pole to borderland,
At Britain's side, what'er betide,
Unflinchingly we'll stand.
With heart we sing, "God Save the King,"
Guide thou the Empire wide, do we implore,
And prosper Canada from shore to shore.

O Canada, our home our native land,
True Patriot Love thou dost in us command.
We see thee rising fair dear land,
The true north strong and free,
And stand on guard, O Canada
We stand on guard for thee.
O Canada! O Canada!
O Canada, we stand on guard for thee
O Canada we stand on guard for thee.

**Selfish Viewpoint
In Political Life.**

Canada is a political unit but a unit covering so much territory is bound to be divided more or less into factions. The French Canadian is more or less a political entity, the Maritime provinces have their particular viewpoint on affairs of state while the manufacturing centres of the East are bound together by the ties of self-interest.

So those whose interests lie on the Pacific coast are bound together by a strong tie, that of getting justice from the rest of the country. The Atlantic coast is historically the centre of commercial life and to transfer any part of it to the other side of the continent, breaks up old associations and jars the complacency of those who have felt themselves secure in controlling the business life of the country. This self-interest of the Pacific is bound to show itself in political life. We find ourselves handicapped by the old traditions and we seek to throw them off, but in doing so we step on the toes of the East.

**Position Of Winnipeg
Illustrates The Point.**

The position of Winnipeg is a good illustration of the self-interest of political life. That city is on the Atlantic slope. Exports from Winnipeg go either east or south, speaking generally. The dividing line between East and West is several hundred miles this side of Winnipeg.

Winnipeg benefits from being a distributing and shipping centre for grain. That is her life blood. Until very recently every bushel of grain exported from the west has gone through Winnipeg. All railways lead there. She holds the strategic position. Then Vancouver interferes and begins to turn business to the Pacific, instead of allowing it to follow the old route, and immediately Winnipeg is against the Pacific. It is her self interest. She stands to benefit by squelching the aspirations of the people on the Pacific. She is forever showing the futility of the western route and objecting to any change in freight rates which would give the Pacific equal rights with the Atlantic.

**West Must Show
United Front.**

The West must show a united front if it is to get justice. The interests of British Columbia, Alberta and Saskatchewan are the same. Saskatchewan will always ship either east or west and the province will benefit from having a choice of markets. It is just as much to the interest of Saskatchewan to be able to ship to the Pacific as it is for Alberta. Even Manitoba farmers will benefit for they will find it possible to ship their grain without the handicap of having the lines cluttered with the grain from the provinces to the west of them.

Because of this community of interest between the western provinces, every effort should be made to unify them politically. We should speak as one man, when it comes to looking after our own interests. It is all very well to have Eastern people say there should be no east and no west but just one united Canada. As long as the East is bleeding the West, we must keep alive the sectional feeling in order to fight for our rights.

**Mile For Mile
We Want The Same.**

At the risk of getting tedious, it is necessary to repeat here that what the West wants is the same railway rate, mile for mile, between the Pacific coast ports and the prairies as is given between Fort William and the prairies. The whole thing is very simple and so far as the West is concerned there should be no two opinions in regard to it. We are not asking for favors but simply for justice. We have the railway grades and now we want the rates which naturally go with those grades.

The Man in the Moon

SAYS:-

DEAN Inge states that socialism may live as an ideal but as a program it is dying.

NOW that we are looking forward to Christmas, let us consider the possibility of establishing a Christmas Present exchange where all the unwanted stuff may be scrapped.

THE Christmas boat promises to be so full that a lot of people will have to sleep in the attic berths.

THINKING of the reasons a man should get married, I am reminded that two can live steeper than one.

JUST think how steep it is when three or four or perhaps five have to live on one microscopic salary.

THE bachelor leads a lonely life. And sighs for something doing. He dreams of the girl he would like to have. But hates to do the wooing.

But now comes the modern girl along.

Who knows he sits and sighs. She does her half in the wooing game.

For the modern girl is wise.

**TOBACCO IN ENGLAND
NOT PROVING SUCCESS**

Flavor Does Not Suit People of That Country Who Prefer Imported

LONDON, Nov. 29.—England will never be a tobacco growing country unless the present tastes of tobacco users change. The committee of the treasury appointed to inquire into the tobacco industry and to report on the possibility of growing and marketing English tobacco said in its report that the English tobacco has a distinct flavor which is foreign to the acquired taste of the consumer and therefore rarely appreciated by him. The trade, in fact, could never be profitable.

The committee does not recommend any further expenditure of public funds toward attempting to build a large tobacco industry in Great Britain.

**PARKER'S WEDDING
THREE ACT COMEDY
IS GIVEN AT ANYOX**

Singers Included Former Prince Rupert Man

Shows may come and shows may go but the excellence of "Brother Bill" entertainments in Anyox keeps ever well in advance of past achievements and pre-show notices. This was clearly demonstrated this week in Recreation Hall when the show billed as "Elks Vaudeville," under the direction of V. C. Cruikshank, held the boards and at the same time had the audience holding its sides over the hilarious situations developed and the smart repartee put across the footlights. It certainly was a good show, and while each performer delivered his particular line of goods in fine style the director must assuredly be credited with the bulk of the honors. Cruikshank is a sure cure for any kind of blues known to the seven ages of man, and could move professionally in good comedy circles if he were so minded. The ladies of the party were well-fitted for the parts they took in "Parker's Wedding," a three act comedy, which proved to be as much of a scream as it was advertised to be.

A feature of the show was the dancing of the Bruggy Sisters, of Alice Arm, the sword dance being exceptionally well done by the elder of the two. Ed. Craggs sang a couple of songs in good voice; a sketch entitled "What?" in which Harry Chapman starred, caused considerable merriment; "Mart and Pep," alias Cruikshank and Greenwell brought out some clever patter and a trifle of singing; while "Parker's Wedding" included Mrs. R. Watson, Miss G. Bashleigh, Messrs. Cruikshank, Harry Chapman, Charlie Gray, Art Nickerson, Harry St. Clair and Mike Cranley.

**MOTOR FINES WILL
GO TO THE CITIES
MANSON ANNOUNCES**

VICTORIA, Nov. 29.—The government has decided to turn over the motor fines to the municipalities instead of holding them itself. Hon. A. M. Manson announced last night at a meeting of the members of the B.C. Automobile Club. Also it was stated that doubt existed as to whether the motor courts, as proposed in the new legislation now before the House, would materialize.

Albert Davidson, C.G.M.M. assistant general freight agent, returned to Vancouver on the Venture this morning.

**IMPROVEMENTS MADE
ANYOX GYMNASIUM**

Community League Hears Report of Secretary and Deals With Routine Matters

ANYOX, Nov. 29.—At the last regular meeting of the Community League Council, with President Harper in the chair, the secretary reported that the basketball league had been organized and a governing body appointed. The banquet tendered to the participants in summer games had cost in the neighborhood of \$215 and had been voted a great success. The adjustable punching bag platform had arrived and been set up in the gymnasium and the shower baths would be ready by Friday evening when the basketball season opened. Preparations were being made for the Christmas dance to be held in Recreation Hall on Monday, December 22, and for the annual treat to all Anyox children on the afternoon and evening of December 23, and which promised to be the most successful affair of its kind ever held in Anyox. An effort was being made to start an organization of teen age boys, and considerable support had been promised.

A representative of Anyox Band desired the Council to withhold the monthly allowance of twenty-five dollars for the time being. Two letters from the L.O.O.M. were read, one of which suggested a card tournament between representatives of various organizations, the other stating that the Moose Order would hold their Christmas tree on December 26. A letter of thanks from the secretary of the Ladies' Hospital Auxiliary thanking the Council for the use of Recreation Hall on Halloween was read.

The Council empowered the secretary to make necessary arrangements for conducting a card tournament in conjunction with other organizations. In the matter of the organization of teen age boys, the Council endorsed the movement; The Council agreed to the suggestion coming from the band, and will withhold payment of the monthly allowance until such time as the band requires it. The question of children of a certain age being allowed in the gymnasium on basketball nights caused some discussion, and it was finally agreed that all children under ten years of age, unless accompanied by an adult, should not be admitted, the same rule to apply to the picture show.

THE CORPORATION OF THE CITY OF PRINCE RUPERT.

TAKE NOTICE THAT:

1. The Council of the Corporation of the City of Prince Rupert intends to construct a pavement fifteen feet wide, consisting of a mattress of timber over which will be placed a paving giving a depth at the crown of ten inches composed of broken stone and sand, on that portion of Hays Cove Circle commencing from a point eight feet south of the centre line intersection of 5th Avenue and Hays Cove Circle, thence along the west portion of the centre line intersection of Hays Cove Circle and 7th Avenue, as a local improvement, and intends to specially assess the cost upon the land abutting directly on the work except such portion of the cost as is incurred at street intersections and at school property.

2. The estimated cost of the work is \$2700.00, of which \$1824.74 is to be paid by the Corporation, and the estimated annual special rate per foot frontage is \$272.8163. The special assessment is to be paid in 10 annual instalments.

3. Persons desiring to petition against undertaking the work must do so on or before the 5th day of January, 1925.

E. F. JONES,
City Clerk.

Dated this 29th day of November, 1924.
