MILLIONS and Movies

THROUGH the medium of slender strips of celluloid an actor appears simultaneously on thouands of screens in as many different towns. On the same evening, he entertains great armies of film fans who eagerly pay their money to see his performance.

So the movie star commands a king's ransom for a salary, and a fortune is spent profitably, to provide a proper background for his art. The movie multiplies personality---and earning power.

Advertising does the same thing for a merchant or manufacturer. In a single day it takes his message into thousands of homes---to tell folks why they should have his goods and how to get them. Advertising endows him with a thousand voices with which to tell his story.

But the value of advertising is by no means confined to the advertiser. It has a very definite value to you.

A glance through this paper enables you to sift out the things that interest you. Sitting in your easy chair you can compare values and prices. in a moment you can tell exactly where to go for what you want and how much to pay.

Figure how much useless walking and talking and how much actual money you can save by spending a few moments daily with the advertisements.
