EXTRADITION ROSS WATSON WAS GRANTED

Writ of Habeas Corpus to be
Again Applied for by Coun-
sel for Prisoner

WITNESSES REFUSED

SEATTLE, Jan. 16.—In a ruling in the Superior Court Judge Gilliam ordered Ross Watson to be held for extradition to Canada on the charge that he is one of the bandits who robbed the Royal Bank at Nanaimo of \$42,000.

Watson was denied the right to introduce seven witnesses to establish an alibi, who, his counsel, would prove that Watson was in Seattle at the time of the holdup.

Counsel will now go to the Federal Court with a renewal of the petition for a writ of habeas corpus to free Watson.

Counsel for T. H. Johnson, Wm. Bagley and Harry Stone, the other Nanaimo robbery suspects also held for extradition are applying for writs of habeas corpus by which they expect to keep their clients out of Canada for two years if not ultimately free them.

SEATTLE, Jan. 16.—Simultaneously with the news of the capture in New Orleans of "Si" Sowash, wanted in connection with the Beryl G. murder, comes the report that James Truitt, alias Mawbray, reputed to be the most desperate hi-jacker that has been known on the Atlantic coast, has transferred his activities to Puget Sound.

NEW YORK, Jan. 16.—Paavo Nurmi was again victorious when he outran Willie Ritola and three other starters in the 3,000 metre running race. Dominion More Powerful as Partner in Empire Than Are Small Independent Countries

LONDON, Jan. 16.—That Canada is more powerful and has a much greater influence in the world as a partner in the British Empire than does any nation of her size that is independent, was shown clearly by Right Hon. L. S. Amery, Secretary of State for the colonies, in an address to the Canada Club here.

Mr. Amery showed how the Dominions had gradually evolved from colonies to independent nations, equal partners in the British Empire. Formal recognition of the process had been made at intervals but Britain, being a conservative country, had often lagged behind in that recognition. While insisting on the arrived at without her concurrence. Her prime minister presided over important commissions that altered the face of the world. "That is the power and status that really matters to Canada," said the minister. "I feel sure that whenever another world crisis comes she will be bound to wish to take no less a share in its decisions than she has in the past and to speak in them as a great power and not merely as one of the lesser powers."

Speaking further of the status of Canada in the Empire, Mr. Amery mentioned her part in the Treaty of Versailles. While the independent lesser powers hung round the outskirts of the conference knowing little of what was really going on and having little influence in the decisions of the Big Four, Canada was consulted at every step because she was a partner in the Empire.

She knew everything that was going on and no decision was

THE MAYOR'S THANKS

To the Electors of Prince Rupert—

Please permit me to extend to my supporters in yesterday's mayoralty election, my warmest thanks for the whole-hearted support accorded me.

It is true I never anticipated such an overwhelming endorsement after the many trials and tribulations of a two-year continuous administration, which usually ends in dire wreckage, and for that reason I appreciate all the more, the apparent explicit confidence reposed in me, by such an unusually large majority.

You may depend upon it, however, that I shall still strive, even more diligently than ever, to use my very best endeavors towards a further fulfillment of what I deem to be only fair and beneficial for the mutual and very complex interests of this city, through your newly-bestowed confidence.

Under the new and more encouraging aspect of fuller council support, I shall strive to render you even increased public service during the year 1925, and in that way measure up to the fuller requirements of my new responsibilities.

Yours, with renewed thanks for past favors,

S. M. NEWTON.

Newton Re-elected by Larger Majority Than Ever; Labor Council

Seville Martineau Newton was elected mayor of Prince Rupert for the sixth term at the municipal election yesterday. He defeated his opponent, Ald. Theo. Collart, by the largest majority that has ever been rolled up for a mayoralty candidate in the history of the city. The total vote was also the heaviest that has ever been recorded in the city.

Perhaps the outstanding feature of the election was the success of the Labor candidates all of whom were returned with big votes. With the support of Mayor Newton which they will

very likely receive, if His Worship continues his policies of the past, the Labor element will control the council for the next twelve months. Three of the Labor candidates headed the polls and the fourth came in sixth. Those elected in order were: William M. Brown, Ald. George B. Casey, John McKechnie, Ald. S. P. McMordie, Ald. R. F. Perry, Oscar Larsen, Ex-Ald. M. M. Stephens and Ald. J. Arthur Smith. The first four will serve two year terms and the last four, one year. Ald. Frank Clapp and Ex-Ald. George W. Kerr were the defeated aldermanic candidates.

The Labor candidate, James Coombs, was also successful in the contest for police commis-

sioner.

There were 1027 ballots cast

in the mayoralty contest, this

being a record high number.

Counting of all the ballots for

MUSSOLINI IS SURE OF SELF

Regards his position in Italy as
Impregnable—Admires
British Methods

LONDON, Jan. 16.—Interviewed by a Rome correspondent of English papers, Premier Mussolini of Italy gave the impression that he regarded his position as impregnable and that power could not be wrested from him without a desperate struggle. Mussolini said he had introduced the British electoral system into Italy because he admired the British system and their methods of government. Italy was no more disturbed than any other country today, he asserted.

Under the new and more encouraging aspect of fuller council support, I shall strive to render you even increased public service during the year 1925, and in that way measure up to the fuller requirements of my new responsibilities.

Yours, with renewed thanks for past favors,

S. M. NEWTON.
