Alberta farmers have recently been shipping a new commodity to the market. During the past few years there has been a considerable increase in the number of bee-keepers and last year 160 keepers had a total production of nearly 60,000 pounds of honey, valued at approximately \$15,000. The exact number of bees is not known.

Contract for aeroplane spruce has been made between Vickers Limited, manufacturers of aeroplanes, and Frank L. Buckley, of Vancouver, B.C. The spruce will be logged on the Queen Charlotte Islands and milled at the Buckley Mill at Port Clement, on Graham Island and at Burrard mill, in Vancouver. The contract calls for the delivery of two million feet during 1925.

Canada leads the world in automobile exports in proportion to production, domestic sales or ownership of motor vehicles or to population. Not relatively but absolutely the automobile exports of the Dominion are only exceeded by those of the United States. Since 1920 the motor vehicle exports of Canada have nearly doubled, the increase being from 9.8 per cent. to 17 per cent. of the automobile export trade of the world.

A special train of forty-two cars containing nearly 900 head of stock for export to Great Britain, arrived at the Canadian Pacific Railway's East End stock yards, Montreal, recently. These, added to shipments from Packingham, Ont., Toronto and other points in Ontario and Quebec, made up what cattlemen claimed to be the greatest concentration of Canadian cattle for export in the history of the trade. From the yards the cattle were shipped by special train to the ship's side at St. John, N.B.

When the round-the-world cruise passengers aboard the Canadian Pacific steamship "Empress of France," reached Egypt recently, they were entertained by Enani Khattab, a prominent sheik holding authority over a large number of villages along the Nile. Unfortunately, the sheik succumbed to a sudden attack of heart failure. The visitors from across the Atlantic before returning to their ship were permitted to attend the funeral, which was conducted in the desert with weird and impressive religious rites, an experience few world-travellers have known.

Between 300,000 and 400,000 Canadians and Americans of Norwegian origin will gather at Minneapolis and St. Paul in June next to celebrate by a great national gathering the hundredth anniversary of the landing of the first organized party of Norwegian settlers on this continent. President Coolidge, King Haakon of Norway and Lord Byng, Governor-General of Canada, have been invited to attend. Meetings of some forty Norwegian organizations, divine service by the Bishop of Oslo (formerly Christiania), field sports, musical contests and historical pageants will make up the programme.

for-general in the Blair Government. In 1892 he resigned his seat, but four years later re-entered politics, this time in the Federal field. He was unsuccessful as a candidate for the House of Commons in St. John City however. Three years later he was again elected to the Legislature, accepting the office of Attorney-General in the Tweedie administration. On the appointment of Hon. L. J. Tweedie to the office of Lieutenant-Governor of New Brunswick in February, 1907, Mr. Pugsley was chosen Prime Minister, a position which he held until the end of the session of the Legislature.

Became Federal Minister
 Mr. Pugsley's entry into the Federal arena took place in 1907 when he contested the constituency of St. John City and County rendered vacant by the death of Dr. Stockton. Following his election, he entered the Laurier Government as Minister of Public Works, following Hon. Charles Hlyman, who resigned. He retained the portfolio of Public Works until the retirement of the Laurier Government following the general election of 1911.

"I saw an Ad - in the street car"

"Not long ago I saw an ad in the street car, 'Soaking takes the place of rubbing'. The next day I sent for a package of Rinso and tried it. I was delighted with the result and now wash my children's clothes without any effort whatsoever — they soak themselves clean in the Rinso suds. I just had to write and tell you how 'wonderful' I think Rinso is and have told several of my friends to try it.

"It is wonderful for scrubbing floors. Without a doubt the best thing I have ever used. I also cleaned my enamel sink with it and it is splendid."

The foregoing letter is but one of the many received by the makers of Rinso from women who are enthusiastic about this newer, easier, better way to wash and clean—the Rinso way.
