Cash Spent at Fraser Street Store Would Have Built Elevator, Says Preacher

Speaking on the topic of making Prince Rupert a big city without having to send for English capital or Government aid, Rev. George G. Hacker last night said the sum of \$1,195,889.15 had been spent in 3 1-3 years in one store on Fraser Street for liquor. This would build the new elevator for which there had been such agitation. It would have built 342 bungalows costing \$3,500 each or 56 miles of road such as is now constructed at a cost of \$1 a foot.

Annual Drink Bill Speaking of British Columbia as a province the drink bill was approximately thirty-five millions—This would build seven elevators costing over two million dollars each, and ten thousand bungalows. These would house the entire population of Victoria, while 1650 miles of road could be built with the province's drink bill in 3 1-3 years of "moderation."

AN INACTIVE LIVER IS THE CAUSE OF CONSTIPATION

When your liver gets sluggish and inactive your whole health suffers.

Your bowels become constipated; you have sick and bilious headaches; your tongue coated and furry; your breath bad; specks float before your eyes, and often you feel as if you were going to faint, especially if in a crowded place where there is little or no ventilation.

MILBURN'S LAXA-LIVER PILLS

They will stimulate the sluggish liver so that it will regulate the flow of bile to act properly on the bowels, and thus clear away all the poisonous matter that is responsible for all your liver troubles.

For sale at all druggists and dealers; put up only by The T. Milburn Co., Limited, Toronto, Ont.

WHEN you hear an old-timer sigh for the days of his forefathers, smile quietly to yourself and think of this.

The ancients got along without automobiles, soap, stoves, tooth-brushes, window-glass, breakfast foods, tele-phones—without practically all of the things we consider the bare essentials of life.
