Over-Booming Mining District.

It is all very well to give publicity to a district and to tell time as Mr. Rochester's case was all there is to be told about it, but at present there seems to be presented. Work On Road To

Proceed Very Soon. While work on the road to Galloway Rapids has been proceeding slowly, the actual grading operations have not yet commenced but the necessary equipment for the work is expected soon and then gangs of men will be employed there. This is very good news and was to be expected, in spite of the stories promulgated by the pessimists who tried to make it appear that the work would not be done this year. The road is needed here and the member for the district is seeing that it is built.

Mr. Rochester's charges \$1.00 were laid in the following letter which was read yesterday afternoon at the regular monthly meeting of the commission:

> "On or about March 20, 1925 part. a very prominent part, by being present in uniform, thus indicating that the action was done under jurisdiction of the law and also barring the passage, thus preventing the mother from reaching her baby and covering the retreat of Johnson down the stairs with the screaming child in his arms.
