

For all washing and cleaning you can't beat this soap -"

says Mrs. Experience, who chooses soap for its economy and laboursaving value.

"Sunlight puts the sunshine of cleanliness into the home! For washing clothes, dishes, wood-work, linoleums, in fact, for anything that can be cleaned with soap and water - I call on Sunlight. And Sunlight does its work so well and leaves everything sweet and clean.

"Sunlight really is economical, too! You see, every bit of it is pure, cleansing soap, containing no filling or hardening materials, which are only waste as far as we women are

"You get greater cleaning value out of a pure laundry soap-and so I say, 'Always keep a good supply of Sunlight on hand'. It really improves with age. And because of its purity, Sunlight is kind to your hands and keeps them smooth and comfortable." Sunlight is made by Lever Brothers Limited, Toronto.

NOWHERE did Abraham Lincoln show his shrewdness of judgment to better effect than in that famous utterance which ended, "You can't fool all the people all the time."

In the past, there were a few misguided advertisers who thought they could sell their wares better by misrepresentation. But those advertisers have long since gone out of business or mended their ways. Hard experience taught that Lincoln was right. Untruthful advertising doesn't pay.

Other advertisers proved that the only way to advertise successfully, make regular customers and build up public good-will was to tell the absolute truth about their goods.

So, you can be sure that every consistently advertised product is good. The advertising test has proved it. The very fact that it is advertised is your best warranty of satisfaction and true quality.

The concern that tells you frankly what it is doing is a good concern with which to do business. That is why it pays to read the advertisements, to patronize advertisers, and to buy advertized merchandise.

It's mighty good business
