ITALIAN PREMIER IS STILL ON AGGRESSIVE SUIT BROUGHT BY NURSE GIRL AGAINST MILL MANAGER FOR DAMAGES

War Declared on Free Masonry and all Such Orders by Mussolini

ROME, Jan. 13.—Although the eagerly awaited session of the chamber of deputies proved disappointing to sensation seekers, the sitting was important in that it again revealed Premier Mussolini in the role of aggressor.

Mussolini presented a bill designed to deal a death blow to free masonry in Italy. It provides that all secret societies and clubs must file with the police copies of their constitutions, rules, regulations and the names of their officers and members.

The police surprised and arrested 33 Communists who were christening a red flag and decorating it with the hammer and sickle.

ELECTION NOT LIKELY SOON

CITY COUNCIL HAS ITS FINAL MEETING

Work of Year was Wound up at
Session Last Night Last-
ing Less than 15
Minutes

OTTAWA, Jan. 13.—The speech of Premier Mackenzie King at Toronto last night is regarded in political circles as disposing of the report that the government plans a short session of the house with a general election in the early summer.

From his outline of sessional work it is apparent that railway freight rates will be the dominant issue demanding long consideration.

The Premier's hint that the government may have gone a little too far in reducing taxation and that time should be given to tariff changes to work out their effect, is regarded as significant.

UNEMPLOYED NOT WANTED

Problem of Looking After 2,500 Out-of-Works Looks Big to Vancouver

(Special to Daily News)
VANCOUVER, Jan. 13.—Vancouver will not make things very comfortable for out-of-works. She does not want them. Alderman J. A. Garbutt, chairman of the police and relief committee, has something like 2,500 men on his hands, but most of them are single and many have blown into town with a wad, spent it almost overnight and now must starve unless they are fed by the city or given remunerative employment.

The city will provide for the married men on work provided for in the recent bylaws, but the single men must shift for themselves. It is thought that in most cases they have no reason to be destitute and many could get work on relief provided by the provincial government at Point Grey.

Alderman Garbutt would like authority to keep unemployed from drifting into the city but, failing that, his motto is not to make it too attractive for them here.

INDIAN LIQUOR CASE DISCUSSED

Milton Gonzales Appearing In
Court of Appeal at Vic-
toria

VICTORIA, Jan. 13.—The Court of Appeal has heard argument asking for the quashing of the decision of Judge Young, dismissing the conviction of William G. Cooper of Moricetown, who it was proved sold liquor to France Alfred, an Indian, but who was proceeded against under the Government Liquor Act. W. D. Carter, deputy attorney general is appearing for the crown and Milton Gonzales for the defendant respondent.

The main contention was as to whether the Indian Act, being a federal measure, overrode the provincial act or whether either one applied. If the latter is correct the decision of the county court judge will be upset. If it is shown that the prosecution should have been brought under the Indian Act and could not be brought against an Indian under the provincial act, then the case remains dismissed.

DELAY SUGGESTED IN APPEAL OF DR. BOAK

Appeal Judges Object to Setting
Case Over to Next Session
of Court

At the sitting of the Appeal Court it was suggested by Counsel for Dr. Boak, under sentence of imprisonment for manslaughter and at present on bail, that a postponement of the appeal to the next sitting of the court might be asked.

Both Chief Justice Macdonald and Mr. Justice Martin stated that they would not allow any postponement except to place the case at the foot of the list. The former said it was not in the interests of justice that there should be long delays from the trial to the appeal. The appeal must be got ready as soon as possible.

W. J. Taylor, K.G., is appearing for Dr. Boak.

EQUAL FREIGHT RATES COMING

Premier Mackenzie King Says It
Will be Before Parliament
at Session

TORONTO, Jan. 13.—Premier Mackenzie King, speaking here last night, indicated that the big business before parliament at the coming session would be transportation problems, particularly as they affect freight rates, and that the tariff will be left alone. He said there must be equality of freight rates in the Dominion as far as the government or government agencies could make them.

Regarding immigration, Mr. King said 300,000 people had been brought to Canada within the last three years. The talk of the exodus to the United States was as exaggerated as it was unpatriotic.
