The association has already cautioned the masters of the vessels against rum running, warning them that it would refuse and to vessels running foul of U.S. laws.

BURGLAR ALARM FOILED ROBBER

Attempt was Made Early Last Night to Enter Bulger & Cameron's Jewelry Store

An effective burglar alarm system last night prevented Bulger & Cameron's jewelry store from being entered by a thief. At 7.25 the would-be burglar, having broken a rear window and unlocked the sash lock, started to open the window when the burglar alarm started in full peal and the lights of the store flashed on. He immediately retreated and was gone before John Bulger and Sergeant McGlinchy arrived on the scene but a very few minutes later. No entry had been gained.

The person who attempted to enter the store left tell-tale foot prints on the fresh snow and an ash pile in the lane and, on the strength of this, a suspect was taken to the police station by Sergeant McGlinchy within an hour. However, there were no eye witnesses and it was necessary to let the man go in this connection.

City Council Committees are Being Discussed but Nothing Will Be Known Until Thursday

The new city council will hold its first meeting next Thursday night when Mayor Newton will announce his standing committees for the coming year. In the meantime, the 1925 aldermen, police commissioner and school trustees will be sworn in. While it is the practice to appoint aldermen who come at or near the head of the polls to chairmanship of committees, it is not expected that Mayor Newton will be able to follow this in drafting his committees this year. Previous aldermanic experience is also generally considered a requirement in the naming of committee chairmen.

The general expectation is that Ex-Ald. M. M. Stephens will head the finance committee again, that Ald. McMordie will be appointed chairman of the utilities committee and that Ald. Perry will continue as chairman of the board of works. Ald. Casey was chairman of the building commission last year and it is probable that he will continue as such in 1925.

The following is a popular committee slate for the forthcoming year and it is expected that the mayor will probably follow it pretty well in naming the personnel of the three most important committees this year: Finance—Ald. Stephens and Ald. Smith.

Utilities—Ald. McMordie, Ald. Casey and Ald. Larsen.

Board of Works—Ald. Perry, Ald. Brown and Ald. McKechnie. It was rumored about town this morning that one of the aldermen-elect was considering resigning because Labor would probably be in control of this year's council. Ald. McMordie stated this afternoon that, as far as he was concerned, he considered such a rumor ridiculous and that there was nothing to it at all.

MORE WOMEN CONSTABLES

London Will Double the Number at Present Employed on Metropolitan Force

LONDON, June 17.—The Home Secretary is planning to increase the number of women constables on the Metropolitan force. At present there are 24 but this number he thinks of increasing to about fifty.

The question of the value of the work of women police is one that has been much discussed. Lady Astor is one of the champions of women in this regard and her influence is being used to have the increase made. She declares that during the war women often were able to arrest men when male constables could do nothing with them.
