Mining Prospects at Terrace Very Bright; Properties Opening Up

TERRACE, April 27.—Mining prospects around Kilsnoy present a more hopeful appearance just now than has obtained for some time past. Couture, Gendron and partners have negotiated a very advantageous compact with eastern interests in respect of their holdings on Bear River, and development work, which has steadily proceeded for some years, will be intensified in the early future.

Smith's mine, financed by the Katum Lake Mines Ltd., is supported by a considerable helping of Terrace capital. Rapid roadway towards production on a paying basis is being made. Already a considerable quantity of high grade gold bearing quartz has been won and the general line of the gold lead is one that promises to facilitate work. The task of deepening the shaft is proceeding apace with Mr. Smith in charge. Very soon the maximum depth intended will have been reached, and then lateral galleries will be run along the main body of the ore. Once the work is well in hand an augmented gang of men will be put to work and shipping may be expected to commence in earnest. To meet the requirements of transport the government is proceeding with the completion of the roadway from Terrace some two or three miles remaining to be built this year and a bridge having to be stretched across the Kilsnoy river.

Liberal Victory Gives Oliver Government Clear Majority in Legislature Over All Parties

GRAND FORKS, April 27.—Complete returns from all polls in the Grand Forks-Greenwood by-election for the Provincial Legislature give D. McPherson, Liberal, a clear majority of sixty over his Conservative opponent, Dr. C. M. Kingston. The total vote stood D. McPherson, 864; Dr. Kingston, 804.

While Dr. Kingston carried Grand Forks by a majority of 79, McPherson carried Greenwood by a majority of 68.

A report received in Vancouver yesterday read as follows: Liberals gained Grand Forks-Greenwood constituency in Saturday's by-election, D. McPherson, the government candidate, defeating Dr. C. M. Kingston, Conservative. All polls with the exception of two have been heard from, giving McPherson a lead of 47. The two polls are expected to increase the lead to about sixty. The vote stands 847 to 800. McPherson led in Grand Forks and Greenwood.

The result of the election gives Premier Oliver a clear lead over all parties in the Legislature. The election was made necessary through the death of John McKie, Conservative member for the district, who was killed in an explosion on the train.

DUNWELL SAMPLING ENDS

STEWART, April 27.—Officials of the Premier Gold Mining Company are sampling and taking an inventory of all equipment at the Riverside mine on the Alaska side of the boundary six miles from Hyder.

The work of sampling the Dunwell mine has been completed and the assays are being made prior to the final negotiations for the sale of the property. The Stewarts hold a controlling interest in the mine and the question of whether it is sold, or not depends almost wholly on them. Usually all the Guggenheims interests want is a controlling interest in a property.

If the people who control the Premier should purchase this mine they will do it with the idea of commencing active operations at once and placing it on a shipping basis.
