FREIGHT RATES ARE TO BE EQUALIZED

FLOODS IN SOUTH AND AT PRINCE GEORGE ARE DOING MUCH DAMAGE

Freight Rate Equalization to be Subject of Legislation this Session; Peace River Dropped

VANCOUVER, May 20.—"I am not optimistic regarding the probability of anything being done this year to relieve transportation difficulties for the Peace River," Premier Oliver stated on his return this morning from Ottawa.

Regarding the question of freight rate equalization, the Premier expressed confidence that the proposals to be brought before Parliament shortly by Hon. George P. Graham, minister of railways, will solve the problem. The Premier admitted that he did not know definitely what the proposals were but added: "All I can say in this particular is that I have confidence the situation will be relieved."

FOUR CHINESE WERE POISONED BY TOADSTOOLS

Lived Together in Camp at Kingcombe Inlet Cannery Near Alert Bay

VANCOUVER, May 20.—The deaths of four Chinamen on Saturday at Kingcombe Inlet cannery a few miles north of Alert Bay was caused by their eating poisonous toadstools, according to information reaching the Chinese consul here. All four victims, it is stated, had gone from Vancouver to work at the cannery, which is now being prepared to resume operations. The Chinese were living in a camp by themselves.

BLOCKADE OF RUM RUNNERS

New York Officials Say Only One Boat is Now Left of Big Atlantic Fleet

NEW YORK, May 20.—Halifax reports state that thirteen liquor laden vessels have docked here. Some are discharging cargoes preparatory to re-entering more peaceful freighting business and others are taking on provisions before again putting out to sea.

Dry officials here interpreted these reports as confirmation of their assertions that the "Rum Row" blockade is proving effective. It is stated that only one vessel is left of the eighty odd that were off the coast of United States before the campaign commenced on May 5.

EIGHT KILLED BY LIGHTNING

Damage Estimated at Million Francs Caused by Storm in Belgium

BRUSSELS, May 20.—Eight persons were killed by lightning and damage estimated at a million francs was caused by storms in this section. The principal damage was to farm crops although the houses in towns and cities were battered by heavy hail that broke thousands of windows. All traffic and communication was impeded and in some places stopped.

Frank Phiscator of Terrace was an arrival from Seattle on the Prince George this morning.

LAST DAY FOR HOSPITAL WARD

Subscriptions Will be Received Any Time Today or May be Mailed Tonight

This is the last day for receiving donations toward the children's ward at the General Hospital. Subscriptions may be sent in any time today or may be mailed tonight, as long as they arrive in time for the final acknowledgement in these columns tomorrow.

John Blow 2.00
Ormes Ltd. 50.00
Gyro Club 50.00
L. W. Waugh 1.00
Maintenance of Way Clerks 40.00
F. R. Riffle 2.00
O. Besner 10.00
Fraser Valley Rancher 10.00
Mrs. J. Meeton50

Delayed by a washout just east of McBride, the train due from the East at 3:30 this afternoon will not arrive until about 6 o'clock tomorrow morning. Though the water has been high on the Bulkley and Skeena Rivers, it was reported at the superintendent's office this morning that the situation was being watched carefully and no trouble on this end is anticipated. Reports received from the interior today were to the effect that cooler weather had arrived and the waters were subsiding.

HEAD OF MOUNTIES IS VISITING CITY

Col. R. S. Knight, B.C. Officer Commanding, Arrived From Vancouver This Morning

Col. R. S. Knight, commanding officer in British Columbia of the Royal Canadian Mounted Police, is visiting the city in the course of a general inspection trip. He arrived on the Prince George this morning from Vancouver and is stopping at the Prince Rupert Hotel.

The engine of the Vickers Viking flying boat, which will be flown from here to Telegraph Creek by Archibald Little, Detroit mining engineer, and his associates within the next few days was turned over for the first time yesterday afternoon and worked very satisfactorily. Col. Williams, pilot of the machine, stated last night that everything was now in readiness for the hop-off which will take place just as soon as favorable reports from the north are received.

In the fall the plane will be

floated back to Prince Rupert and probably on to Vancouver.

It may even be flown from Vancouver to its headquarters at Three Rivers, Quebec, although this has not yet been definitely decided upon.

Two other Chinamen, who escaped from the fusilade of

bullets, attempted to get away in an auto, but the car upset and both were taken into custody by

the Port Moody police.

The direct cause of the shoot-

ing is thought to have been the

outcome of criminal law cases,

street fights, small riots and

sluggings in Vancouver's China-

town some time ago.

The freighter Salvor arrived in port this morning and is dis-

charging a cargo of coal at G.

T. P. wharf No. 1.

A new type of ultra-violet ray by means of which "sunlight" can be administered internally is being demonstrated in England. Used in the mouth and throat it has proved beneficial in cases of several diseases.

Fraser Valley Floods Cover Thousand Acres

Low dykes protecting Dewdney district failed to hold and ranches are covered with water

VANCOUVER, May 20.—A thousand acres of land in crop has been flooded out in the undyked areas of Glen Valley, Fort Langley and the lowlands of Nicomen Island and South Westminster as a result of flood conditions in the Fraser Valley under pressure of the rising waters of the Fraser River.

The low dykes protecting the Dewdney district east of Mission failed to hold and last night great quantities of water poured through the breaks, flooding the fertile ranches.

Efforts to stop the progress of the waters were confined to protecting the main Dewdney dykes which are holding.

The river last night at Mission was 19 feet 8 inches and steadily rising at the rate of half an inch an hour. Miles of roads in the

Glen Valley and Fort Langley districts are inundated to a depth of three feet at some places and road communication is suspended.

Glen Valley and Fort Langley districts are inundated to a depth of three feet at some places and road communication is suspended.

The cool weather which has just set in following the extreme heat of the week end when the thermometer was up to 90 degrees in the shade is causing the river to drop a little. It was very high and much earlier than usual.

L. W. Palmore was a passenger last night on the Cardenam

for Vancouver on business.

HAZELTON, May 20.—The cool weather which has just set in following the extreme heat of the week end when the thermometer was up to 90 degrees in the shade is causing the river to drop a little. It was very high and much earlier than usual.

L. W. Palmore was a passenger last night on the Cardenam

The Vickers-Viking amphibious flying boat, which is now all assembled at the dry dock here awaiting receipt of favorable

weather reports from the north before taking off with Archibald

Little, Detroit mining engineer, for Telegraph Creek on a prospecting expedition into the Cassiar gold fields, is the only machine of its kind on the continent.

The machine was built by Vickers in England and imported to Canada by its owners, the Laurentide Air Service Co. Ltd. of Three Rivers, Quebec. It is powered with a 450 horse power Napier Lyon engine and is equipped with the latest of every thing in safety and efficiency devices. It has a wing spread of 50 feet.

The fuselage and wing floats conventional airplane spruce.
