AIRPLANE HERE IS ONLY ONE OF ITS KIND ON CONTINENT GUARDED WITH JEALOUS CARE.

(Continued from Page One).

from the pilot's cockpit. The rudder is operated by foot and there are dual controls of the engine, etc.

Unloaded the machine weighs 4,000 pounds and loaded 6,000 pounds. The tanks have capacity for enough gasoline for 4½ hours flying while enough may be carried in cans for ten hours flying and can be pumped into the tanks without the pilot or mechanic leaving the cockpit.

The plane has seating capacity for five persons and has carried nine.

Last year this plane saw a lot of service in Ontario and Quebec in forestry service for the government. It was on James Bay and Hudson Bay for some time with Col. J. Scott Williams, its present pilot, also in command of it at that time.

With official designation of G-CAEB, the sides of the fuselage, together with the name of the owning company, bear the motto "Veni-Vidi-Vici," which translated from Latin means, "I came, I saw, I conquered." It was a machine identical to this in which Squadron Leader Stuart Maclaren last year attempted to fly around the world.

Col. Williams guards his machine with a jealous and careful eye and, while he courteously shows the ship to visitors and is ever willing to explain the details, he permits no smoking around about and sees, when letting people aboard, that they do not handle delicate parts. "It's all right with government machines," he says, "they have lots of money if one does blow up but this is the only one we have and we are a long way from home."

The machine, when it arrives in the Dease Lake country, will likely be moored the most of the time on water in sheltered coves but it can be readily taxied up to shore on sandy beaches.

It is the intention to fly direct from here to Telegraph Creek but a stop may be made at Wrangell. The machine having a cruising speed of 90 miles per hour, the flight from here to Telegraph Creek is not expected to take more than four hours. One is lucky if he can get from Prince Rupert to Telegraph Creek in a week by the more antique method of water transportation.

Aerial transportation is the ideal thing for the Great North and the operation of this machine in the Cassiar district will be watched with a great deal of interest by the outside world. The present expedition, it is quite possible, is only the forerunner of many more to come.

Over three million feet of logs have been sent during the past week from the Alfbotsford Logging Co.'s camps. A million feet went to Prince Rupert and the balance to Ocean Falls.

A. Davidson and Ed. Gustaffson left last week for the upper Kitsault country to resume development work on the Wildcat properly.

AN INACTIVE LIVER IS THE CAUSE OF CONSTIPATION

When your liver gets sluggish and inactive your whole health suffers.

Your bowels become constipated; you have sick and bilious headaches; your tongue coated and furry; your breath bad; specks float before your eyes, and often you feel as if you were going to faint, especially if in a crowded place where there is little or no ventilation.

When in this condition there is only one thing to do, and that is to take

MILBURN'S LAXA-LIVER PILLS

They will stimulate the sluggish liver so that it will regulate the flow of bile to act properly on the bowels, and thus clear away all the poisonous matter that is responsible for all your liver troubles.

"Never Say Die"

A rib-tickling comedy containing all the uproariously funny things that happen to rough the road to romance. Breezy Douglas as the fastest-working bridegroom who ever slipped a ring over a bride's finger. Come and laugh at the funniest frame-up ever arranged for a divorce and how it failed—the groom who couldn't kiss his bride—the most fascinating Parisian vamp who ever busted a romance—and the futurist painting which might have been a horse or a flower girl. Four physicians pronounced Doug. to be suffering from arteriosclerosis and poliomyelitis but it was only a bee in the stethoscope. Strong supporting cast: **Lillian Rich, Hallam Cooley, Wade Boteler, Eric Mayne, William Conklin, Helen Ferguson and others.**
