How carefully you select your toilet soap!

you expose your hands to harsh kitchen soap in the dishpan an hour and a half every day

IT must be mild and pleasant your toilet soap even though your hands are in contact with it only ten minutes a day at the most. You can't bear to use a harsh, drying soap for washing your hands. So, naturally, you select it carefully.

Then you undo it all! By using strong, stinging kitchen soap in your dishpan. When you do the dishesyour hands are in these drying, coarsening suds a full hour and a half.

Your skin can't help getting drawn and rough-your finger-tips all scratchy.

"any" soap. Use Lux in your dishpan. Lux has that softness and mildness that make it as easy on your hands as fine toilet soap. But of course you know that. Think of the things you just wouldn't trust to anything but Lux.

Your hands deserve as kind treatment as your chiffons-your fine woollens. Use Lux whenever you have to have your hands in soap and water for any length of time.

> For breakfast or lunch dishes a single teaspoonful

A level teaspoonful of Lux lasts through one entire dishwashing. That is, for breakfast or lunch dishes. When you've a lot of dinner dishes you sometimes need two teaspoonfuls.

Get the big new package of Luxflip a teaspoonful of flakes into your dishpan. Then see how sparkling those quick suds make your glasses and silver-how speedily they wash all the dishes.

Buy Lux to-day—the big new size for kitchen use—the regular size for the bathroom. Lever Brothers Limited, Toronto. L-517
