SEEING ALASKA BY AIRPLANE IS LATEST

NEW PRESBYTERIAN CHURCH OPENED HERE BY DR. MILLAR OF EDMONTON

FISHING BOATS WILL CLEAR FOR ALASKAN PORTS

Next week will see the local fishing fleet getting away for the habit fishing banks and many will leave early in the week for Ketchikan or some other Alaskan port where they will be nearer the banks than they will be here.

Fishermen have been returning from visits to the south and the final touches are being put on the repair of boats. Gear will be assembled this week and repaired for use so that when the morning of February 16 dawns, the boats will be on the banks ready to let down their lines.

There seems to be a general desire among fishermen that the treaty law should be obeyed to the letter and the presence of patrol vessels on the more important banks will make sure that there is no fishing before the season actually opens.

The probability is that before another close season the U.S. law will be so amended as to keep the boats actually in port until the fishing season opens.

MUSEUM BOARD FIRST MEETING

Offer of Loan of Valuable Collection of Indian Curios Accepted Provisionally

At the first meeting of the museum board held Saturday evening the offer of a loan of a valuable collection of Indian curios from Dr. Large of Hazelton was accepted provisional on the money to pay the expenses in connection therewith being forthcoming. The collection is now in the museum at Toronto and, if removed, the sum of approximately fifty dollars charges paid by them will have to be refunded to them and also the cost of bringing them here. It is thought that the total charges will amount to about \$150.

The collection is a large one, made by the late Dr. Large at Port Simpson and consists of about 350 pieces in all, some of which are very old and valuable.

The board talked over the whole local situation and decided to commence an active canvass for natural history and historical specimens.

Rev. Canon Rushbrook was added to the board which consisted previously of H. F. Pullen, chairman; S. K. Campbell, W. E. Collison, Miss DuVernet and Miss Ruth Stewart.

The room in the Bank of Commerce Building offered for the purpose by Mr. Campbell will be utilized at first until the collection gets too large or until the room is wanted by the bank for other purposes.

DR. BOAK APPEAL IS HEARD AT VICTORIA

W. J. Taylor Appeals to Quash Conviction on Several Grounds

VICTORIA, Feb. 2.—The appeal to quash the conviction of Dr. E. W. Boak was argued by W. J. Taylor, K.C., for the applicant and with M. B. Jackson, K.C. for the Crown. The main cause given for the appeal, as recited by the counsel for the Doctor, was that both the grand jury and petit jury were defectively chosen, that two of the jurors were deaf, and that the judge misdirected the jury.

Dr. Boak was convicted of manslaughter and sentenced to four years imprisonment by Mr. Justice Murphy, in connection with the deaths of David Ballantyne and Alexander McLachlan near Victoria.

Judgment is reserved.

MEMBER OFF TO OTTAWA TODAY

Fred Stork Says He Thinks Freight Rates Will Feature Session

BUSINESS BEGINS MONDAY

Peace River Railway Likely to be Discussed and Possibly Dealt With

Freight rates will be the big subject at the coming session of Parliament, Fred Stork thinks. Mr. Stork is leaving this afternoon for Ottawa and will be on hand for the commencement of business there next Monday morning. The formal opening takes place on Thursday when the speech from the throne is read and the house formally adjourns until the beginning of the following week. As Mr. Stork is not particularly keen about formalities and social activities he does not wish to be there for the spectacular opening, but he says he will be there for all the business.

Freight Rates

In connection with the freight rates controversy, Mr. Stork says he thinks there will very probably be a general revision with a lowering of the rates in the west and a corresponding slight raise in the east. The whole matter will be discussed and a spirited fight will be put up by western members for better treatment in this regard.

Mr. Stork says he believes the government will have ample support this season. The Progressive members do not want an election yet and as long as they get progressive legislation they are satisfied and it is progressive legislation the Liberals stand for.

Peace River

It is possible that Peace River transportation may be a matter for legislation at this session, but Mr. Stork is of opinion that no very big scheme will be entered into just now owing to the lack of funds. It is a little early yet for the government to enter into any comprehensive railway building scheme, as such would only increase taxes whereas what is needed today is to keep taxes down.
