LABOR MEMBERS OF PARLIAMENT WOULD ABOLISH OFFICE OF GOVERNOR

Labor Members ask for Abolition Governorship Order to Save Expense

OTTAWA, June 16.—Abolition of the post of Governor General of Canada was recommended by J. S. Woodsworth, senior Labor member of the House of Commons last night, when a vote for the expenses of maintaining Rideau Hall was before the House. Both Labor members, J. S. Woodsworth and William Irvine of Calgary urged that in the interests of democracy and economy the post might very well be dispensed with.

Both members disclaimed any intention of disparaging the present or any incumbent of the post. Mr. Woodsworth said it was only now that Baron Byng had made it clear that he would not remain in Canada that he felt justified in recommending that such an executive officer as the Chief Justice of Canada, who is at present deputy of the Governor General, should discharge the duties of the office and save the expenses of the Governor Generalship proper. These expenses he estimated at \$500,000 yearly.

(Special to Daily News)
ATLIN, June 16.—The mining situation in the Atlin district is looking far more promising than it has for years. The active development of the Engineer Mine is perhaps the one thing more than any other that has been responsible for the present condition. The same quality of high grade ore as was indicated in surface showings, and in the upper workings, has been found at the lower levels at the Engineer, and the stock of the company, which has a par value of \$5.00 per share, is reported to have sold recently on the New York Exchange at \$56.50. Work at the mine is now being carried on under the management of A. C. Brinker, a mining engineer of wide experience.
