Exceeding The Speed Limit Is Dangerous.

Everybody exceeds the speed limit sometimes unless he is a snail or tortoise. There are times in everyone's life when it would have been better to go slow. Yet if everyone thought of that all the time the world would slow down until a day would become forty-eight hours.

If we slow down we get the slow habit and cannot do anything else. If we speed up we get the speed habit and possibly corporated in the tale. may become careless. Between the two lies the safe way.

In some big cities a person may not drive slowly because it slows down the whole traffic of the street. It is the duty of

each one to get out of the way behind.

Prince Rupert as a city must keep up in the race for premacy. In a place far removed from other places there is a tendency to slow down and that we cannot afford to do. Each out. individual, if left alone, tends to become slack and now and then; we have to shake ourselves and see that we are keeping up the pace, but not too fast.

British Columbia People Well Off.

Some days ago we published statistics to show that British Columbia had higher per capita wealth than any other province of Canada. Now we have just received word from Alberta of a nurse who went from Vancouver to Alberta and who writes of the and his charge upon the outconditions there. She says: "This is surely back of beyond." This place is nine miles from an auto road, ten miles from telephone, twelve miles from a railroad and sometimes sixty and at least 35 miles from a doctor. The schools are open only in the summer months. They are a great distance apart and have to visit them on horseback. I have been to two community, dances to which the mothers and babies all come so that a dance is a good opportunity to meet the people.

There possibly are places in British Columbia where people are as badly handicapped as at this Alberta point, but not many.

Notable Parliament For Prince Rupert.

Parliament has prorogued after a lengthy and somewhat contentious session. Sessions tend to become contentious as election time draws near.

This particular session has been of the greatest moment to lost. Prince Rupert. It has passed over a million dollars in appropriations for the elevator here and the local member, Fred Stork, has had a strenuous time piloting it through. There was a dead UNCONQUERED HORSE set from rival interests to kill the appropriations and thus kill or greatly delay the building of the elevator here. Now the money has all been voted, the contract is let and the work well under way. It seems as if the elevator would be ready by autumn and Story of Chase of Wonderful fire is said to contain some of to send a chill through the most "Girl Shy" portrays the lazy grain going out from this port. TY/HAT OF TO-MORROW? To-day you are alive -- well --happy.

But suppose a summons sounds in the darkness and tomorrow your chair stands vacant. What, then, of your wife? Your children -- what of them?

Will your vacant chair spell a double tragedy to the loved ones left behind? Your own personal loss will be unavoidable. Not so, the lack of foresight which will leave them unprotected.

When your presence is no longer there to provide for them -- to help them over the rough places of life--even then your care need not cease. Even then your forethought may guard them against want and adversity.

Life Insurance truly stands as the Guardian Angel of stricken homes--as a living testimony of man's faithfulness to his loved ones, even in death.

Think! Think of those dependent upon you. Think-and act. Get in touch with a Life Insurance representative to-day. To-morrow may be too late.
