You wouldn't light candle at both ends and expect it to last very long. And you can't attend your many duties as wife and mother, then pile on washday labor, and expect to keep yourself fresh and vigorous. Why not let us take care of washday toil and trouble? One of our many services will fit exactly both your needs and your purse. And you can "keep the home fires burning" without burning the candle at both ends.

Can You Afford

LVERY time you buy something you are either speculating or making a definite investment.

Few people can afford to speculate. Yet many do it continually, in making their everyday purchases. And it is so unnecessary. The advertisements make it easy for any one to avoid taking a chance.

The merchant or manufacturer who advertises, realizes that the good-will of his customers means money in the bank to him. He knows that the public confidence in his product and public respect for his own character are as valuable as his credit at the bank.

So he makes the individual satisfaction of his patrons, their loyalty and their friendship paramount issues in his business.

When you buy an advertised product, you can know in advance what to expect in return for your money. You can count on its being right. You are making an investment.

But when you buy nameless, unbranded merchandise, you are taking a chance. speculating.

Know what you buy. The advertisements will tell you.
