

## TO ENTERTAIN VISITORS FROM SOUTHERN CITY

Informal Discussion at Board of Trade Meeting But no Business Done

Either discouraged by the criticisms levelled at them at the public meeting the previous night or attracted by the gyro hoedown at the auditorium members of the Board of Trade last night failed to turn out in numbers sufficient to form a quorum. The result was that no meeting was held.

Informally some of those present discussed what might be done to entertain members of the Vancouver and other southern mainland boards of trade on the occasion of their visit to Prince Rupert in July. It seems that they expect to arrive here on the Cardena on Sunday, July 19, and to leave for the interior on the train Tuesday morning. That would give all day Monday to see Prince Rupert. Among the suggestions which will be considered by the entertainment committee will be to give them either a luncheon or a dinner of an official character and probably a dance in the evening. During the day they might be taken in boats to see the Gold Storage plant, Shawallans Lake and Butze Rapids, Metlakatla Indian village and the Salt Lake.

The proposal to erect large signs at the Canadian National and Provincial government docks to let tourists and other visitors know what is to be seen here, will be left over until it is known what money is available for publicity purposes.

## APPEAL MADE AGAINST FIRE

**District Forester Shows Need of Care and Value of Conservation**

P. S. Bonney's district forester writes the Daily News in regard to fire prevention as follows:

**Editor Daily News:**

The five months beginning May 1 and ending September 30 are designated by statute as the closed fire season in British Columbia, on account of the fact that during that period, the hazard of destructive forest fires is great. Each year throughout the province, hundreds of forest fires are started, and many of them cause great damage. During 1924, 2,174 forest fires occurred in British Columbia, of which nearly 90 per cent were caused by human agencies, and were therefore preventable. During the past ten years, 13,808 forest fires have occurred in our province, and they swept over nearly four million acres, causing property losses of millions of dollars. Nearly nine out of every ten forest fires are the result of carelessness, ignorance or neglect.

In view of our dependence upon our forest resources for continued prosperity and economic well-being, the prevention, detection and control of forest fires are questions which vitally concern every man, woman and child living in the province.

The annual fire losses in the forests of British Columbia can be reduced to very small proportions if every one of us will be personally careful with fire, and regard the fire menace in forests exactly as we now do in respect to fires in towns and cities.

Will you do your part to prevent and control forest fires during 1925?

## AGONIZING RHEUMATISM

OF 5 YEARS STANDING COMPLETELY RELIEVED BY "FRUIT-A-TIVES"

MR. JAMES DOBSON

"Be good enough to publish for the information of Rheumatism sufferers how "Fruit-a-tives" relieved my Rheumatism which had at least five years' standing. The trouble was in my right hip and shoulder; the pain almost unbearable. This kept up until I started to take "Fruit-a-tives". After a continuous treatment for about six months, I am now in first-class condition. This, I attribute to my persistent use of "Fruit-a-tives."

The above is the letter which Mr. James Dobson of Bronte, Ont., wrote after trying the wonderful Fruit Treatment—"Fruit-a-tives"—which consists of intensified fruit juices combined with tonics. If you suffer with Rheumatism, "Fruit-a-tives" will make you well and keep you well. 25c. and 50c. at dealers.

## Sport Chat

Canadian cities invested \$347,994.29 in public recreation during 1924, according to the Playground and Recreation Association of America, which has just issued its Year Book of recreation statistics. This sum, reported by fifteen cities in eight provinces, is three times as much as the expenditure reported for this purpose by Canadian cities ten years ago. Reasons for increasing municipal investment in recreation are its returns in child safety, character building, public health and more liveable cities, states the Year Book. The total number of Canadian playgrounds and recreation centers open under leadership was reported as 281, six hundred and ninety-four trained leaders were employed to direct public play activities during the year.
