### Why Do They **Read This Stuff?**

Why do people read this column? Sometimes it is difficult in-council.

to understand why people do many things. Some things we Dated at Ottawa, Aug. 27, 1924 think people do we find later that they do not do. Perhaps that is the case with reading editorial articles. The average newspaper reader does not discuss what he reads or at any rate not with the editor of a newspaper. Most of the readers are not to thank you and commend you known to him personally. And yet there is a feeling that they are part of his big family and that he would like to talk things over with them if there was only time to do so.

Readers of this column are people of divergent views. Many do no agree with what is said. Others agree only partially.' It is impossible to get anyone who agrees with everything.
