

FACTS ABOUT TEA SERIES—No. 6

Appearance of Tea No Guide

The only way to test tea is to taste it. Many people have the idea that a finely rolled and tippy tea is superior in flavour to a large rough leaf. In reality this is not of necessity the case. The altitude at which the tea plant grows determines the amount of essential oil and alkaloid theine in the leaf. The essential oil gives tea its flavour; the theine contributes the stimulating value. The only way to insure always receiving a uniform quality is to insist upon a skilfully blended and scientifically sealed tea like "SALADA" whose reliability, goodness and delicious flavour have become a household word.

Pelagic Sealing Treaty Discussed.

The Vancouver Star discussing the sealing treaty urges that it be continued. Apparently Vancouver does not expect to benefit from the sealing business and the waters adjacent to Vancouver are not depleted by the seal herds. The seals pass outside of Vancouver Island, but here most of them travel north between Queen Charlotte Islands and Prince Rupert and they live on fish as they travel.

In the neighborhood of Rivers Inlet the Department of Marine expends a lot of money in killing off the sea lions. The fur seals are very similar in habits to the sea lions. They all eat fish and as they pass they take thousands of food fishes, thus helping to deplete the stock. But we protect them and ask that the number be increased.

If the sealing treaty is to be continued, Prince Rupert should demand a share of the pelts. While Victoria was once the sealing centre and may even yet take part in the business, it is Prince Rupert that would benefit from the open season. Then Prince Rupert should get part, at least, of that fifteen per cent that is paid over to the Dominion. Either open sealing or a share of the proceeds should be our demand from the Dominion government.

Japanese Immigration.

Canada has a gentleman's agreement with Japan in regard to admission of their nationals to this country. An understanding was reached that not more than 150 were to come here each year. Now it is claimed that the agreement has been broken and that last year 510 came to Canada, no fewer than 358 claiming to be wives or children of Japanese already here.

The only plan, if the agreement is to be continued, is for the British consul at Tokio or Yokohama to visit the passports and to refuse any beyond the stated number allowed to come.

Canada must control her own immigrants and must speak very plainly to any country that would force her people on us if not wanted. The Japanese are a wonderful people but they can best develop in their own country, under their own laws. They have many virtues and perhaps are better people than ourselves. In many respects they certainly excel over those of the white race, but that is no reason why a race problem should be thrust upon this country.

Who Will Do Work At Salt Lake?

Who is going to put in a dock at the salt lake to accommodate the visitors to that resort this summer? The swimming club seems to have failed to raise the necessary enthusiasm to get the work going and in the meantime the good weather is about due and the dock will be needed. Something should surely be done before long. The difficulty is to find anyone sufficiently interested to carry it on.

The Salt Lakes are the chief attraction for tourists in the district and the most accessible local resort. The second lake is the only place where bathing can be indulged by young and old without danger. It should be the pride of the city and anything like neglect should be carefully avoided.

"Now Feeling Fine and Able to do my own work"

Mrs. Walter Grieves, Coe Hill, Ont., writes: "I was in such a weakened, run-down condition that I could not take care of my household duties. I was unable to sleep at night, and the doctor told me I was anaemic. I commenced a treatment of Dr. Chase's Nerve Food and to-day I am feeling fine and able to do all my own work."

"My little girl had eczema, and different remedies took no effect whatever. We got a box of Dr. Chase's Ointment and that one box relieved her."

PRESBYTERIAN TEA WAS HELD ON SATURDAY IN HALL OF NEW CHURCH

Very Successful Event at Which a Number Took Part; Sum \$50 Raised

Under the auspices of the ladies' aid of the Presbyterian Church there was an unusually interesting tea in the church hall at which Dr. Price's juvenile orchestra took part and the playing of which was much appreciated. The affair was a huge success and the sum of \$50 was added to the funds of the society therefrom.

The general arrangements were in the hands of the president, Mrs. J. Greer, with Mrs. William Millar convener of the tea room, assisted by Mesdames Alex. Finnie, B. Delgarno, R. J. D. Smith, E. A. Mann and J. L. Lee. The cashier was Mrs. Rice; candy was sold by Mrs. J. Simpson, assisted by Misses Ina Woods and May Reid; ice cream was dispensed by Mrs. Haynes and Mrs. Frank Moore; and the program was arranged by Mrs. D. Thomson. The following took part in the entertainment:

Piano—Miss Jean Grievie and Miss Beatrice Berner.

Dances—Highland fling and Irish jig, by Miss Jean Scott, accompanied by Miss Mary Dauther; baloon dance, by Miss Marian Quinn; skipping rope dance, Miss Edna Ireland, accompanied by Mrs. Hinton.

Sketch—"The Doctor," by Jerry Mann, Betty Brown and Gwyllim Hughes.

Sketch by four boys—Lloyd Greer, Ian Murray, Garfield McKinley, and Billy Fuller.

Orchestra selections by Dr. Price's juvenile orchestra.

Violin solo—Miss Audrey Parkin.

CROP REPORTS ARE EXCELLENT SO FAR

Rains Delayed Seeding in Some Districts but is in Progress Now

The crop report of the Bank of Montreal says that seeding in the prairie provinces as started earlier than usual and the seed bed was generally in excellent condition. In the Calgary district nearly fifty per cent of the seeding had been done and the moisture was ample. Rains delayed seeding in the Lethbridge district. In the irrigated districts in the south six thousand acres is ready for sowing sugar beets.

The country around Regina was delayed slightly by cold showery weather but seeding is now well under way under excellent conditions. Spring plowing is well advanced and there is only a slight decrease in the wheat acreage.

In the Winnipeg district wheat seeding is well under way and the acreage is about the same as last year in spite of the bad weather in the fall which hindered preparation of the land.

WHY KING ALFRED BURNED THE CAKES

Historians attach great importance to the fact that King Alfred allowed the cakes to burn that the good-wife Maude had told him to look after. But to bake cakes properly in King Alfred's time was a difficult task. There were no modern ovens.

But modern industry has improved baking methods. Today the up-to-date bake oven is heated by electricity. Such ovens are clean and sanitary. You can see them in operation at the Electric Window Bakeries—makers of Electric Bread. 106

The Man in the Moon SAYS—

IF I could only write like some of the editors, I know this would be the funniest column in the paper.

THERE was a young lady named Blanca

Who retired when the ship was at anchor

But awoke with dismay

When she heard the mate say, We must pull up the top sheet and spanker.

THERE was a young girl at the hoodown

Determined she'd wear her dress low down

She no sooner spoke

Than a ribbon string broke

And she left at once from the hoodown.

GIRLS once wore whalebone. Now they have backbone.

IF you call on a man when he is tight he is likely to loosen up. Collectors please take note.

FINE paper lingerie is the latest Paris fad. It would scarcely do here. Something might happen.

SHE sported new lingerie

A flimsy French fad.

The rain soaked it through

And then she got mad,

For the paper let go.

And what happened you know.

Those garments were all that she had.

WHAT we have been wondering about is whether the Senate has been in session since Easter recess. Others were wondering if they were in session before Easter. Yes, Jake, we know they were because we were told they adjourned a week or two before the Commons.

THEN here's to the senator.

Dreaming all day

Of the things he is never expected to say.

THE latest sensation is the weather. It is about as usual, thank you.

AND here's to the weather man

Sitting in state

Who whispers discreetly

For rain to abate.

JAKE says the chief recreation of the Prince Rupert people is gossip. It is so refreshing you know.

HERE'S then to the gossip

To whom nothing matters

Unless she is tearing

Her neighbors to tatters.

WE seldom hear any jokes about man being descended from the monkey. Woman makes a monkey of him anyway so where is the joke?

HERE'S to the monkey from

Whom man descending,

Held on by his tail

Picturesquely suspending.

Before the Ball

A warm bath with a liberal lather of Baby's Own Soap, leaves one refreshed, ready for the dance, and with the clinging aroma of the Roses of France which inspire its fragrance.

You cannot get a purer or more delicately perfumed soap at any price—yet Baby's Own sells in individual cartons, 10c. a cake.

Ten Years Ago in Prince Rupert

May 4, 1915.

In a written statement presented to the city council last night by Mayor Newton in answer to questions put by Ald. Montgomery, Mayor Newton said in part: "In answering these questions the mayor wishes to say that in future he will use his own judgment even if contrary to the procedure bylaw as to whether or not he will answer questions of a trivial nature for embarrassing purposes only. He feels the time of the council can be put to much better use."

David McLennan, a well known resident of the city, was found dead on the floor of his home on Borden Street yesterday afternoon. He was a brother of J. C. McLennan of Vancouver.

Herbert E. A. Robertson, who has been practising law in Vancouver, has been appointed judge for Cariboo district with headquarters at Prince George.
