

How the Bank can help the Farmer

THERE are scores of ways in which your Bank can help you—methods that will surprise you by their convenience and safety.

Take the sale of an animal. If it is a cash transaction, you can ask the purchaser to send you a marked cheque or your bank will attach a sight draft to the bill of lading.

If it is a time sale, your banker will handle and collect the note.

Our manager will be only too glad to outline to you the scores of ways in which he can serve.

SMITHERS ANGLICANS LOSING CLERGYMAN

Rev. R. E. W. Biddell Is Leaving For Abbotsford After Easter.

SMITHERS, B. C., Feb. 6.—The annual meeting of the supporters of St. James Anglican church was held on Tuesday night, Rev. R. E. W. Biddell presiding.

The reports presented by the officers at the head of the various church work were very pleasing, especially the report from the Sunday School superintendent, the attendance at Sunday School having more than doubled in the past year.

An announcement much regretted by those present was made by the Rector, who stated that he had received a call from the Bishop of his former Diocese which he felt he was obliged to answer as his three year's leave was now nearly over. The call is to Abbotsford, B. C., but it is most likely that he will not have to leave here until after Easter. In the meantime church officials are endeavouring to secure a successor and an invitation has been extended to Rev. J. Gray, of Chileo.

The election of officers for the present year resulted as follows: Rector's Warden: R. W. Champion.

People's Warden: F. E. Page. Envelope Secretary: F. Rendle. Council: Mrs. H. Matthews.

Mr. Bishop, J. H. Byrne and H. G. Windt.

Delegates for Synod Meeting: Mrs. A. E. Campbell and S. H. Hoskins.

Alternatives: Mrs. J. W. Dawson and C. V. Exill.

PRINCE RUPERT AS MARKET FOR PRODUCE

Matter of Creamery Here Will Be Taken up With Government by Dr. Wrinch.

In its report of the proceedings of the Bulkley Valley Board of Trade, when the proposal was made to establish a creamery at Prince Rupert, the Omineca Herald says Prince Rupert is the natural market for Bulkley Valley produce and that is where the milk should be disposed of. A committee will discuss the matter and it will probably be taken up with the government through Dr. Wrinch, member for the district.

ZERO WEATHER THREE TIMES

Official Records Show Only In 1911, 1916 and 1917 Did Mercury Drop Low.

1921 WAS WARMEST.

The coldest weather on record in Prince Rupert was 6 degrees below zero on January 23, 1916, and the next coldest was 4 below on January 29 and 30, according to a statement that has been received in the city from F. Napier Denison, director of the Gonzales Heights meteorological station, by Mrs. H. H. Hemmings, to settle a dispute. The warmest winter on record was that of 1915 when the lowest point to which the thermometer dropped was 22 above zero. Of the fifteen winters recorded, the coldest weather in eight of them was in January, in four the coldest day of the year was in February, in two December and once in March.

Mr. Denison's statement as to the coldest day recorded year by year in Prince Rupert may be of general interest, so it is here-with given:

1909—6 above, Feb. 12.
1910—Not taken.
1911—3 below, January 12.
1912—8 above, Jan. 10.
1913—4 above, Jan. 18.
1914—8 above, Jan. 27.
1915—22 above, Dec. 29.
1916—6 below, Jan. 23.
1917—4 below, Jan. 29 and 30.
1918—11 above, March 11.
1919—6 above, Feb. 28.
1920—7 above, Jan. 22 and 23.
1921—14 above, Jan. 18; Nov. 21 and Dec. 25.
1922—8 above, Feb. 13.
1923—5 above, Feb. 14.
1924—5 above, Dec. 15.

It will be noticed that there has never been below zero weather here in any other month than January, and then only three times in fourteen years.

BADMINTON GAMES ARE BEING PLAYED

The ladies tournament of the Prince Rupert Badminton Club is taking place this afternoon, a large number of members present and some close contests being staged. Tea is being served by a committee in charge.

A GOOD WAY TO INCREASE BUSINESS

Many advertising messages fail to attract attention because they are either unattractive or are too stereotyped.

This is the opinion of one of our busiest and most successful business firms—Albert & McCaffery, Ltd. They have succeeded in interesting many new customers in the story of the famous Nanaimo—Wellington coal and since the coal itself lives up to its reputation these customers are coming back daily for more. Nanaimo—Wellington coal is the premier fuel for the fireplace, range and furnace. More heat—less ash—no rock or clinkers.

You should try Nanaimo—Wellington as soon as your present supply gets low. Better still, if you order some now you can test it out with the coal you are now using. Nanaimo—Wellington stands supreme when a comparative test is made.

To secure a supply phone Albert & McCaffery Ltd., who are sole agents here. Their phone numbers are 416 and 564.

BABY'S COLDS

Children's delicate digestions are easily disturbed by too much "dosing." Still, the little ones' cold troubles cannot be neglected.

At the very first sign of croup, sore throat, or any other cold trouble, apply Vicks VapoRub over the throat and chest. There is nothing to swallow—you just rub it on. Colds go over night, croup is usually relieved in 15 minutes.

The Great Breatheable Remedy

Peps

FOR
COUGHS, SORE THROAT, COLDS & BRONCHITIS

As you dissolve a Peps tablet on your tongue, certain healing fumes are released which are immediately taken with the breath down into the furthest recess of the lungs where liquid medicines cannot penetrate. These Peps fumes on their way bathe the whole of the breathing passages with their healing potency, soothing the throat, allaying inflammation in the bronchi, and relieving the chest. Liquid medicines are simply swallowed into the stomach and cannot act in this direct Peps way.

While Peps are an expensive remedy to produce, the demand has become so great that it has now been found possible to have the

PRICE REDUCED to 25c. box
