in Canada. The Toronto girl was shown what appeared to be a lump of black and bent copper, which she recognized as an Indian axe. Later it was identified by Professor J. Norman Emerson, head of the University's department of anthropology, as dating back to the Old Copper Culture of 5,000 years ago. She is shown with Jack Mangan, former prospector, who found the relics on the short of Farquhar Lake, near Wilberforce, 60 miles north of Peterborough, Ont. Miss Shaw helped him uncover other relics including copper axes, awls, fish-hooks, flanged speartips, beads and several Chalcedony flint scrapers.
