### NORWEGIANS TO GATHER AT TWIN CITIES

Fifty Thousand Canadian-Norwegians Will Attend Norse-American Centennial at Minneapolis and St. Paul in June.

King Haakon, President Coolidge and Lord and Lady Byng Invited.

Professor Gisle Bothne

In June next, between three and four hundred thousand Canadians and Americans of Norwegian origin will gather at the twin cities of Minneapolis and St. Paul to celebrate by a great national gathering the hundredth anniversary of the first organized party of Norwegian settlers on the Continent. It was in 1825 that the little sloop Restauration, of 45 tons, set sail from Stavanger carrying a little band of adventurers who settled in New York state and ever since that time there has been a steady stream of newcomers to this continent from their homelands.

The coming gathering and its purposes were recently discussed at the head office of the Canadian Pacific Railway, Montreal, by Professor Gisle Bothne of the Minnesota state University at Minneapolis. The professor stated that the Legislatures of Minnesota had endorsed the gathering and had forwarded through the secretary of the State of Washington invitations to President Coolidge, King Haakon of Norway and the Governor General of Canada. President Coolidge had already accepted and Lord and Lady Byng have given assurance that they will attend. It is expected that about 50,000 Norwegians now living in Canada will attend the Norse-American Centennial.

The gathering will be opened on June 6 next and about forty "Bygdene" or Norwegian Clubs will hold meetings during the first day. On Sunday June 7 the Bishop of Oslo, with a full choir was known as a historian, will hold a divine service and the succeeding days will be given up to meetings, field sports and musical competitions, and an historical pageant depicting the Viking activities of one thousand years ago and the history of Norwegian art and literature will be presented. The costumes will be magnificent and in brilliancy of technique, in magnitude and splendour the whole array will rival anything of its kind that has heretofore been produced. The other features of the Centennial are being prepared on the most elaborate scale.

It is already arranged that a large delegation from Norway's parliament will be present and there is some hope that the Norwegian Crown Prince may attend. Five Norwegian-American universities are closing for the summer early so that their faculties and students may be present. Professor Bothne pointed out that the Norwegians had done much in the building up of the central western states and their influence was shown by the fact that the governors of no less than five states were of Norwegian birth or descent. It has been proposed that the Canadian Department of Colonization shall have an exhibit at the convention.

In the course of the interview professor Bothne stated that undoubtedly the new United States immigration laws would result in large numbers of Norwegians coming to this country during the next few years.

**Your Farm is a Business Proposition**

YOUR farm is as much a going concern as a factory, a dry goods store or a railroad system. Your farm is as dependent as any other business on a policy of sound, forward-looking financing designed to meet the various situations that occur in the life of a farmer.

If you will regard your farm in this light—as a clean-cut business proposition—you will find it helpful to form a connection with the Bank of Montreal—a bank that has served the farmers of Canada for more than a century.

Each of our 600 branches has the strength and stability of the entire organization.

### PORTUGUESE GIRLS BECOMING MODERN

Slowly Emerging From Moorish Seclusion and Want to go to Work

LISBON, Feb. 19.—The women of Portugal slowly are emerging from the almost Moorish seclusion in which they have lived for so long, and the first thing they do, under the new freedom, is to go to work. The shops and offices of Lisbon are besieged these days by girls eager to follow in the footsteps of their sisters in other countries, and earn their own livings.

Much had to be overcome by these Lisbon girls. There was the resistance and ill-will of the masculine element, grounded in the precedent of many centuries, and a large group of minor state officials, in fear of their own jobs, voiced violent opposition.

In the schools also Portuguese girls have won their victories. They have exploded old traditions, and today are taking their places on the benches along with their brothers.
